---

Good morning,

When possible, please create a new insig activity/exemption log for TDOC Northeast Correctional Complex (46-0059). Please create Point 07 (Two 6.277 MMBtu Propane Boilers), attach Point 07, and upload the attached insignificant request email to this new log.

If you have any questions or need additional information, please let me know.

Thank you,  
Josh Rhoads

Good Afternoon Joshua,

I was just checking the TDEC Air Permit data viewer and I did not see anything more recent than this email. Based on your evaluation, are these considered insignificant? And if so, is it possible to get a letter stating that as well? If not, is there a new permit number and permit deadline?

Best Regards,  
Tammy

Joshua,

This facility has a separate stack for each of the three boilers. Please let us know if you require additional information.

Thank you  
Tammy

**Subject:** Permit Renewal - Facility 46-0059

Good Afternoon,

My name is Joshua Rhoads. I am the permit writer assigned to the operating permit renewal for three propane boilers located at Tennessee Department of Correction Northeast Correctional Complex (Facility 46-0059). After Reviewing your application, the Division has determined that your application is complete.

Also, I would like to determine if any of the permitted boilers share an emission stack or if they each have individual emission points. This information will help the Division to determine if any of the boilers could be considered insignificant activities, as defined in part 1200-03-09-.04(2)(a)3 of the Tennessee Air Pollution Control Regulations.

Thank you,  
Joshua Rhoads
