Re: Insignificant Activity Determination Request  
Tennova Healthcare - Cleveland  
2305 Chambliss Avenue NW, Cleveland  
Emission Source Reference No. 06-0056-04/Log No. E80815

Dear Ms. Bostick:

The Division received your insignificant determination request for an existing 800 KW diesel-fired emergency generator on August 26, 2022. The information which you provided has undergone a preliminary review by the permit program.

It has been determined that the existing 800 KW diesel fuel-fired emergency generator described in your application would constitute an insignificant activity or insignificant emissions unit, as defined in part 1200-03-09-.04(2)(a)3 of the Tennessee Air Pollution Control Regulations. Specifically, this operation would result in potential emissions from this source of less than five tons per year of each air contaminant and each regulated air pollutant that is not a hazardous air pollutant, and less than 1,000 pounds per year of each hazardous air pollutant.

Subparagraph 1200-03-09-.04(4)(a) of the Tennessee Air Pollution Control Regulations allows an existing source to receive designation as an insignificant emissions unit at any time. Therefore, the referenced source will not require a permit at this time. All applicable air pollution control regulations must still be met by your facility.

If you have any questions concerning this correspondence, please contact Mr. Michael Vergamini at 615.532.0068 or [Michael.Vergamini@tn.gov](mailto:Michael.Vergamini@tn.gov). Your Facility ID is **06-0056**, please reference this number in any further correspondence with the Division.

Sincerely,

James P. Johnston, P.E.  
Deputy Director  
Permitting & Regulatory Development
