Good Morning!

I was reviewing through your submittal regarding those sources that are requesting insignificant/exemption and have a question on the wood drying kiln. Can you provide the design capacity of green wood into the kiln?

Thanks so much!

Sincerely,

**Jill Pratt, E.I.** | Environmental Manager 3

**Subject:** [EXTERNAL] Quint-C Pallet Inspection Follow-Up

Hello Candace and Jill:

Attached please find an Assessment and Compliance document for Quint-C Pallet for your review. I know there were questions about the changes made in 2016, and about a number of sources at the facility that are not listed in the facility's permit; the attached document should answer a lot of those questions. We're happy to set up a call to discuss any additional questions or data needs. Please let me know what additional information we can provide you or DAPC, or if you'd like a call to discuss.

Thank you,

Andrea Russell, on behalf of Quint-C Pallet.

**Subject:** Quint-C Pallet Inspection Follow-Up

Hello Candace and Jill: My name is Andrea; I am assisting Tammy and Quint-C Pallet with your air compliance information request. I am currently reviewing your request and working with Tammy on the necessary response. My preliminary determination is that no changes have been made at the site beyond what is currently permitted that are modifications; I need to look further into the cyclone change to determine whether it was an op-flex change or whether it is just routine maintenance. I will provide documentation to support my conclusions, and will answer any other questions you have previously posed/or currently have. I am out of the office until November 30<sup>th</sup> but goal is to have a response to you by December 2, before the requested December 4<sup>th</sup> due date.

Thank you, and please reach out with questions,

Andrea Russell

**COVID-19 Safe Work Measures**

In order to stay safe and continue to provide optimal customer service, while at customer locations we will continue to:

- Follow social distancing guidelines and only work from locations where this can be maintained;
- Use appropriate PPE, including the use of a face covering; and
- Avoid areas with active or recent COVID-19 cases in the past 14 days that have not been thoroughly cleaned.

If we are unable to maintain these measures, for your safety and ours, we will remove ourselves from the immediate location and relocate
