Good Morning Mr. Gala,

Concerning complaint 126059 as described in the email chain which follows: New barrel houses are being constructed but the facility has provision for the construction of additional barrel houses in their current operating permit. The facility currently has a pending T5 renewal as well as a pending minor modification to the current permit to add an additional 23 whisky maturation warehouses. The mention of filtration and thus design of the barrel houses associated with this complaint has been referred to our permitting section who are working with the facility to obtain additional information needed. This request was sent certified mail to the facility on December 8, 2022 with a deadline for information submission within 60 days of letter receipt. Additional information was received on February 13, 2023 and is currently being reviewed by our permitting team. If you need additional details regarding this matter, Mr. John Fuss as copied on this email is the team member in permitting working on this case and will be the best point of contact. Please let me know if you have additional questions.

Thank you,

Hattie Benet
