Emission Source Reference No. 82-0639-01/Permit No. 982165

Dear Mr. Davis:

Your construction permit application dated February 15, 2024, for a nonmetallic mineral crushing and sizing operation was received on February 16, 2024. Please be advised that construction or modification of the source cannot begin until you are in receipt of the issued construction/modification permit. A determination has been made that the application is incomplete for the following reason(s):

Additional information is needed as follows:

1. Revise all sections as required of the APC 100 application forms.
2. Provide the current emissions information, equipment list and manufacturer technical specification information of crusher, screen, conveyors, and etc.

Applications and Instructions:

Please submit the additional information to the Technical Secretary at the letterhead address or email the information to [Air.Pollution.Control@TN.gov](mailto:Air.Pollution.Control@TN.gov) in Adobe pdf format within 60 days of receipt of this letter so that the Division can review the revised application for completeness. If additional deficiencies are identified, you will be able to correct them within the remainder of the 180-day period that begins on the date you received this letter, as provided in subparagraph 1200-03-26-.02(4)(d) of the Tennessee Air Pollution Control Regulations.

It is the express intent of the Tennessee Air Pollution Control Board that the 180-day permit application correction period is not to be construed by an applicant as permission to construct or modify a source without the permit required by Division Rules. If you fail to submit a complete application within this 180-day time period, all construction permits shall be denied and any fees forfeited.
