SUBJECT: SOLID WASTE ANNUAL MAINTENANCE FEE FOR FY 2023
TENNESSEE ENVIRONMENTAL PROTECTION FUND –
PUBLIC CHAPTER 417
RECYCLING EXEMPTION FOR EKAMOR RESOURCE CORPORATION

Dear Ms. Rives:

EKAMOR Resource Corporation has been classified and permitted as a "Solid Waste Processing Facility" by the State of Tennessee Department of Environment and Conservation. Our facility is a research, development and demonstration facility (SWP710001586). Due to supply chain issues, we are still in the development phase of the business. We have tested several different machines, and as of today have ran 3000 lbs. of material, of which 750 lbs. have been returned to a landfill.

Pursuant to Tennessee Rule 0400-11-01-.07(1)(b)4. EKAMOR Resource Corporation is requesting a recycling exemption to the annual maintenance fee, as we have recycled 75% of the materials received within our plant.

Based on the letter dated August 1, 2022, outlining the requirements for exemption from the annual maintenance fee, EKAMOR Resource Corporation should qualify for this exemption.

Please advise if there is additional supporting documentation or information that is needed.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kelly Warbis", is written over a faint, light-colored circular stamp.

Kelly Warbis
CEO
