RE: Proposed Perry County Landfill

Dear Mr. Richardson:

In accordance with the Regulations Governing Solid Waste Processing and Disposal in Tennessee, Rule Chapter 0400-11-01-.02, the application for the above facility has been reviewed for compliance with these rules. Based on the submittal, dated April 8, 2018 and received April 12, 2018, we have found deficiencies that need to be addressed before continuing the review process. Below are items that we have found in our review of Part 1 of the application:

1. (1)(c)2(v) – The department shall not review or approve a notification for a solid waste processing facility or an application for a new solid waste landfill that is proposed to be located within jurisdictions that have adopted the Jackson Law until the application or notification for a processing facility permit by rule is approved pursuant to T.C.A 68-211-704. Perry County adopted Jackson Law in 1991.
2. Part 1 Application, Box 1 - Fill acreage (100) is greater than site acreage (5).
3. Part 1 Application, Box 5 - The Zoning Authority and contact information is not listed.
4. Part 1 Application, Box 6 - The landowner listed should be the landowner of the property at the time of application, not the pending owner.
5. The Part 1 application should include: A topographic map showing the facility, property boundaries to ½ mile past the boundaries, each waste processing or disposal unit, wells, springs, and other surface water bodies within ¼ mile of the property boundaries..
6. The Part 1 application should include: A disclosure statement containing information concerning past performance in waste management fields of the applicant, officers, directors and/or partners of the applicant's business.

Please contact me at (931) 840-4162 or by email to discuss these items or to schedule a meeting to discuss these items.

Sincerely,
