Jan:

No way are we going to agree to or approve this kind of shenanigans by TDEC and the EPA. Sending in a black permit application is a betrayal of the entire process. A Permit writer only has to fill in the blanks once EPA comes through. So, No. Since we don't know what it is- and neither does TDEC. No.

This is totally unacceptable, Jan. And it's wrong. And no way do we agree to a blank application. If TDEC approves this we ask for an appeal RIGHT NOW.

What I am witnessing in TDEC paperwork for my county is no longer viable and totally unacceptable. I am shocked TDEC thinks anyone would fall for this. We aren't falling for it. Now, this is very serious, Jan. Does TDEC think this is legal? Then point me to the exact FEDERAL LAW that backs this up.

This is a blatant attempt to push through a permit in 2 years when no one knows what's on it. TDEC is trying to set a precedent here and the same for ARAPS and WWTP's--currently. The answer is no, Jan. This unacceptable. Know that we are on this and that this behavior by TDEC will stop.

Now why are the numbers on the Permit Renewal of TN0059366 different in the old permit and new draft for a 5 year extension and how many times do I have to ask?

This nonsense must cease and desist.

Park Overall

Park,

The public hearing will not be transcribed. If the public meetings are conducted in person, they are not transcribed. Typically they are not even recorded but because of COVID-19 changing the way we meet, our citizens, like yourself who may be unable to attend, are now granted access to these meetings giving us greater transparency than ever in my opinion.

The reasoning for the review is that EPA is making fundamentally different changes to the stormwater Multi-Sector General permit. These changes won't be available until at least November. TDEC would like to incorporate these updates when the permittees renew so extending the existing permits until the new changes are incorporated gives everyone time to see/review EPA's final document and integrate the needed updates. We don't have EPA's document to compare with the existing one since it is not finalized. Liz sent you what we have which is TDEC's blank application. There is not a specific permit to review here, the process of delaying for EPA's updates is under review and how you would direct any comments. I'm not surprised there were no questions or comments during the meeting as most of the questions and comments were probably directed at EPA for their revisions and will ultimately be directed to TDEC when we adopt updates at a later time.

Liz, can you check the dates on the dataviewer and have DWR make any needed corrections to that date?

Thank you!

Jan

I see no copy of the public audio hearing transcribed? What is the expiration date on this permit for comments? Storm Water permit not POWT sedimentation one, storm water? Why is it dated wrong on data viewer? Why is the Application blank? Public Hearing was not the 2nd it was the 6th/ I'm sorry but this is getting problematic for me. We'll discuss tomorrow.

Thank you both, Park

Hey Park,

You can find more information about the general permit at this site

<https://www.tn.gov/environment/permit-permits/water-permits1/npdes-permits1/npdes-stormwater-permitting-program/npdes-industrial-stormwater-general-permit/npdes-stormwater-multi-sector-general-permit-for-industrial-activities-tnr050000.html>

Also, please see the attached draft permit Liz had sent for review. I listened to the public meeting and Brooke asked them to raise their hand for a question or just unmute and talk. That gave them two options. We haven't had any issues thus far with people being able to talk and make official comments on the meetings we have conducted. In fact, we had the best participation we have had in years for some of the mining hearings. I guess more people who can't physically attend in person or who want to stay safe are still able to attend. Hope this helps!

Thanks!

Jan

Good Afternoon Park,

I apologize for the inconvenience with my voicemail, I have reported this issue to our technical support staff. I have also requested the recording of our public hearing held yesterday at 1pm, I will provide that for you as soon as I can. I have attached the draft permit for TNG640000 for your convenience; this can also be found on our public dataviewer.

Kind Regards,

Liz Campbell

Dear Liz:

What happened to the public hearing on storm water? When was it? I had it as the 6th, my secy had it as the 7th. So many hearings - so little time!!!! Did the call take place? If so, I will need a copy of the video/audio. Or a transcript, whichever is more convenient for you. I dialed your # today but got a recording of a code? But not the code I needed.....So? I know Jan tried Maybelle and I tried you via email. This is the first thing I've received back today on this.... Thank you for this, but what happened on storm water?

Also, I will need the application for this below. As well as the NPDES Draft itself. Obviously I cannot drive to Nashville in a pandemic. Thank you for your time. Am happy to pay costs.

Thank you,  
Park Overall

Applicant Name  
TNG640000 VMJ Major  
Street Address/Location State of Tennessee  
Permit Number Permit Writer Initials Discharger rating  
County Statewide EFO Name Statewide  
City and/or Zip Code Statewide, TN 00000  
Description of Activity 2020 issuance of the general NPDES permit

Good Afternoon,

This Email is hereby given pursuant to Rule 0400-40-05-.06 Notice and Public Participation.

Attached is an electronic copy of PUBLIC-NOTICE-MMXX-027 7-7-2020, 2020 NOTICE OF PUBLIC HEARING NOPH20-002, instructions for using WebEx as well as Governor Lee's Executive Order.

Should you have any questions or comments regarding the public notices, please Email or call the permit writer.

Thank you for your consideration.

I need the date of this. The application for this. And the pass code for the above call. Thank you.

Park Overall
