**Description:** The Tennessee Department of Environment and Conservation, Division of Water Resources, proposes to issue a General NPDES permit for discharges of treated groundwater associated with underground storage tank (UST) remediation, Permit Number TNG830000, applicable to all locations in the State of Tennessee. The draft permit will replace the current permit that expires on May 31, 2018.

TDEC staff will hold an informational session prior to opening the formal public hearing. The informational session will have a question and answer format and will include a presentation by TDEC staff on the proposed permit action. TDEC staff will be collecting all public comment without response during the hearing. TDEC staff will provide written responses to all oral and written comments following the public hearing, prior to making a final determination on the permit action.

The meeting moderator may limit the length of oral comments in order to allow all parties an opportunity to speak, and will require that all comments be relevant to the proposed permit action and the DWR issues. Written testimony will be accepted at the hearing, for ten working days following the hearing, and will be considered part of the hearing record.

Interested persons may obtain additional information, including a copy of the draft permit, and may inspect and copy related documents at the division's offices, Attn: Beth Rorie (615) 532-1172.
