Mr. McAdoo,

Attached is the Inter-Basin Transfer Report for Plateau Utility District, inter-basin transfer permit number IWTOLD016, for the reporting period from June 23, 2011 through July 31, 2012. Historically Plateau Utility District has submitted an Inter-Basin Transfer Report for the selling of water to Sunbright Utility District on a wholesale basis. Due to the fact that Sunbright Utility District resided in both the Upper Tennessee Clinch-Emory River Basin and the Upper Cumberland River Basin. Sunbright Utility District was merged into Plateau Utility District on June 20, 2012 and no longer exists as an independent entity. Therefore, Plateau Utility District is now located within both the Upper Tennessee Clinch-Emory River Basin and Upper Cumberland River Basin. We have determined that 23 percent of our customers lie within the Upper Cumberland River Basin. Therefore it is safe to assume that approximately 23 percent of the total quantity of water is transferred to the Upper Cumberland River Basin. As such and pursuant to the Tennessee Code Annotated Title 69, Chapter 7, Part 2 (i.e., § 69-7-211), Plateau Utility District is required to report to the Tennessee Department of Environment and Conservation the quantity of water transferred between basins. This submittal should satisfy the aforementioned requirements. If you have any questions or need additional information regarding the Inter-Basin Transfer Report please contact me at (423)223-6383 or Mike Monroe at (423) 319-7791.

Respectfully,

Michael Woods
Plateau Utility District
