Dear Mr. Binford:

The proposed change(s) described in your letter dated February 9, 2022, does not constitute as an *operational flexibility*, as defined in 1200-03-02-.01(1)(aa)4 of the Tennessee Air Pollution Control Regulations (TAPCR). It has been determined that the requested equipment being added would require a permit as portable rock crushing and screening operation. Based on the information received, your written notification of the proposed change(s) for an operational flexibility to your operating permit has been denied.

If you have any questions concerning this correspondence, please contact Jimmie Horton at (615) 532-0533 or via email at jimmie.horton@tn.gov. Your Facility ID is **50-0196**, please reference this number in any further correspondence with the Division.

Sincerely,

Will Collins, Section Manager
Tennessee Permit Program
