NASHVILLE, TENNESSEE 37243-1531

Co. File

Permit to Operate and

Permit to Construct or Modify an Air Contaminant Source Issued Pursuant to Tennessee Air Quality Act

Date Issued: April 21, 1995

Permit Number:

Date Amended: May 5, 1995

[AMENDMENT]

741358P

Date Expires: November 1, 1997

Issued To:

Installation Address:

Eastman Chemical Company

South Eastman Road
Kingsport

Installation Description:

Emission Source Reference No.

B-190E-3

82-1003-07

Mixing and Plastic Processing
Production of plastic pellets

The holder of this permit shall comply with the conditions contained in this permit as well as all applicable provisions of the Tennessee Air Pollution Control Regulations.

CONDITIONS:

1. The application that was utilized in the preparation of this permit is dated January 30, 1995 and signed by Karen H. Rowell of the permitted facility. If this person terminates his/her employment or is reassigned different duties such that he/she is no longer the responsible person to represent and bind the facility in environmental permitting affairs, the owner or operator of this air contaminant source shall notify the Technical Secretary of the change. Said notification shall be in writing and submitted within thirty (30) days of the change. The notification shall include the name and title of the new person assigned by the source owner or operator to represent and bind the facility in environmental permitting affairs. All representations, agreement to terms and conditions and covenants made by the former responsible person that were used in the establishment of limiting permit conditions on this permit will continue to be binding on the facility until such time that a revision to this permit is obtained that would change said representations, agreements and covenants.

John W. Walton

TECHNICAL SECRETARY

OJA

GAH

No Authority is Granted by this Permit to Operate, Construct, or Maintain any Installation in Violation of any Law, Statute, Code, Ordinance, Rule, or Regulation of the State of Tennessee or any of its Political Subdivisions.

NON TRANSFERABLE

POST AT INSTALLATION ADDRESS

2. Particulate matter emitted from the Miscellaneous production equipment (Vent A) shall not exceed 2.90 pounds per hour (lb/hr).

This emission limitation is established pursuant to Rule 1200-3-7-.01(5) of the Tennessee Air Pollution Control Regulations and the information contained in the agreement letter dated April 15, 1986.

3. Unless allowed otherwise in 1200-3, the control device (Vent A fabric filter) shall be operated with a control efficiency of 99% at the control device design rating.
4. Visible emissions from this source shall not exceed 20 percent or greater opacity as determined by EPA Method 9, as published in the Federal Register, Volume 39, Number 219 on November 12, 1974. (6 minute average)
5. Sixty (60) days prior to the expiration of this permit, permittee shall apply for permit renewal.

(END OF CONDITIONS)

This permit is amended by removing "0.02 grains per dry standard cubic foot (gr/dscf) or" from the wording of Condition no. 2 in response to an appeal letter dated May 5, 1995 from Ms. Josephine Hankins of the permitted facility.
