RE: Modified Start-up Date Certification – Lawrenceburg Quarry  
Facility ID No. 50-0035-05; Permit No. 962849P  
Lawrence County

2010 MAR -3 AM 11:09

To Whom It May Concern:

Rogers Group, Inc. (RGI) is submitting this report to demonstrate compliance with Condition No. 22 of the above referenced permit. This report contains a copy of all pages of the permit, with the required information of Condition No. 22 entered.

This letter will serve as certification of the modified start-up date of the source as January 28, 2010 and will therefore complete the requirements of Condition No. 22.

If you have any questions or need any additional information regarding the information submitted, please contact me at (615) 780-5781.

Sincerely,

Van Medlock  
Environmental Manager

Enclosure:

Cc: Columbia Field Office

22. The permittee shall certify the start-up date of the air contaminant source regulated by this permit by submitting

~~A COPY OF ALL PAGES OF THIS PERMIT,~~

with the information required in A) and B) of this condition completed, to the Technical Secretary's representatives listed below:

A) DATE OF START-UP: 1 / 28 / 2010  
month day year

B) Anticipated operating rate: \_\_\_\_ percent of maximum rated capacity

For the purpose of complying with this condition, "start-up" of the air contaminant source shall be the date of the setting in operation of the source for the production of product for sale or use as raw materials or steam or power production.

The undersigned represents that he/she has the full authority to represent and bind the permittee in environmental permitting affairs. The undersigned further represents that the above provided information is true to the best of his/her knowledge and belief.

Signature 		Date <u>2/26/2010</u>
Signer's name (type or print) <u>Van Medlock</u>	Title <u>ENV. Mgr.</u>	Phone (with area code) <u>615.780.5781</u>

Note: This certification is not an application for an operating permit. At a minimum, the appropriate application form(s) must be submitted requesting an operating permit. The application must be submitted in accordance with the requirements of this permit.

The completed certification shall be delivered to the West Tennessee Permit Program and the Field Office at the addresses listed below, no later than thirty (30) days after the air contaminant source is started-up.
