Subject: Permit Registry Notification for Eastman Chemical Company
Attachments: 979280-Permit draft for permit registry 2021-0902.pdf

Pursuant to Tennessee Code Annotated 4-29-120 (Tennessee Governmental Entity Review Law), the Division of Air Pollution Control is forwarding a draft permit to the Division's Permit Registry for review. This notice is being provided at least 15 days in advance of permit issuance or denial, as required by statute.

Interested parties are invited to review this permit and to submit comments. Permits will only be issued when all applicable requirements, regulations, and procedures are met. The Division will consider all relevant comments received prior to permit issuance or denial.
