Subject: [EXTERNAL] FW: Barton Malow Company- dba -Ultium Cells/ Nightsky - Facility ID: 63-0361-Additional information is requested

*** This is an EXTERNAL email. Please exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email - STS-Security. ***

Attached please find the updated permit application addressing the questions from Mr. Aleali.

- The facility is a portable operation.
- The units are powered by diesel engines mounted on the units. HP of engines were added to application.
- We have two crushing operations at one site. The application refers to "site" as a separate pile but all at the same location. Therefore, no separate application was filed.

Thank you,

Craig Fenton

15. Describe changes that have been made to this equipment or operation(s) since the last construction or operating permit application:

N/A

16. Comments

Facility has two sites for rock crushing that use near identical setups. The two sites are situated near to each other and each has the capability of 400 tons/hr. and 600,000 tons/year.
