Jimmie, please find the revised agreement letter and our request to remove Erik as the responsible official and transferring that to myself. If you need anything else let me know. Thanks – Van

Mr. Knowles:

Good afternoon. Attached is the draft air quality permit regarding Lawrenceburg Quarry for you to review and to provide feedback if necessary concerning this permit upon receipt. Please review it within about a week's time (before November 19) and contact me if you have any questions or comments at your earliest convenience. The approval of the draft in its current form can be confirmed with the reply of "no comments" where afterwards an official copy of your permit will be issued to you following a final review by the Division.

Also please revise the attached agreement letter based on my comments.

If there are any other inquiries concerning this correspondence, feel free contact me at your convenience.

Sincerely:

Jimmie L. Horton | Environmental Protection Specialist
