Re: Facility ID # 93-0118
Permit Number: **974979**

Dear Mr. Rudd or responsible official:

The Division of Air Pollution Control is completing file reviews to identify permits approaching their expiration date. It has come to our attention that permit number **974979** is due to expire on **January 3, 2021**.

Pursuant to Tenn. Comp. R. & Regs. 1200-03-09.02(3)(b)1., an application for an operating permit shall be filed with the Technical Secretary not more than thirty (30) days after initial start-up of an air contaminant source constructed or modified in accordance with a construction permit issued by the Technical Secretary.

Therefore, if this source has begun operations, please submit a complete operating permit application, and include a start-up certification if required by your permit. Application form CN-0730 (APC 100) and instructions are online at:

<https://www.tn.gov/environment/program-areas/apc-air-pollution-control-home/apc/permits-air/air-quality-operating-permit0/permit-air-air-quality-state-operating-permit.html>

You now have the option of submitting your application via email to Air.Pollution.Control@tn.gov. The submittals must be signed, dated, and in PDF format. If preferred, paper documents can be mailed to the Technical Secretary at the address found on the application.

If construction or start-up cannot be completed, and forms filed with the Technical Secretary by the expiration date of your permit, a permit extension request must be submitted in writing at least thirty (30) days prior to its expiration date. Written requests can also be submitted in pdf format to the email address above.

Please ensure all conditions of this permit have been met, including other possible deadlines and record keeping requirements.

If assistance is needed, the Small Business Environmental Assistance Program (SBEAP) is a free, confidential, technical program within TDEC that can help. This program is able to assist with completing applications including calculations as well as any other environmental questions that a small business may have. The SBEAP can be contacted at 800-734-3619 or by email at BGSBEAP@tn.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "James P. Johnston".

James P. Johnston, PE
