Re: Operating Permit Request
Hormann LLC
450 Airport Road, Sparta, TN 38583
Emission Source Reference No. 93-0118-02 and 93-0118-03 / Permit No. 078648

Dear Mr. Tidwell:

The Division received your application requesting an operating permit for a polyurethane foam injection, heat tunnel, and sawing operation on November 15, 2022.

The information which you provided has undergone a preliminary review by the permit program. The Division has determined that the addition of Source 03 to operating permit 078648, as specified in construction permit 974979, cannot be processed. Specifically, increases were made to the production rate and the VOC emissions rates for Sources 02 and 03 as stated in the operating permit application dated November 3, 2020. Therefore, the request is denied, and Sources 02 and 03 will require a new construction permit at this time.

Please submit a construction permit application and associated fee for Sources 02 and 03 to the Technical Secretary at the letterhead address or email the information to Air.Pollution.Control@TN.gov in Adobe pdf format within 60 days of receipt of this letter. Please include the applicable application forms, a cover letter clarifying the production rate of garage doors, and the emissions calculations for VOCs for both sources.

If you have any questions concerning this correspondence, please contact Ms. Katherine Stephens at 615-770-1108 or katherine.stephens@tn.gov. Your Facility ID is **93-0118**, please reference this number in any further correspondence with the Division.

Sincerely,

James P. Johnston, P.E.
Deputy Director
Permitting & Regulatory Development
