State of Tennessee
Air Pollution Control Board
Department of Environment and Conservation
Nashville, Tennessee 37243-1531

Attention: Technical Secretary

RE: Permit 064587P

We are in receipt of our Operating Permit DRAFT and made some necessary changes for your records. Setco Automotive had an address change from the 911 Board making the physical address as follows:
Installation Address is now, 1731 Mineral Wells Ave., Paris, TN. 38242.

Johnny Cross, Operations Manager (signature on the permit), and contact for your office is no longer in our employment, effective December 1, 2015. As we were closed December 24-January 3, 2016, I did not get your draft until Monday January 4, 2016. Please update your records to contact Gary Flood, who is now over our Maintenance Department. Gary's email address is gary.flood@setcoauto.com and his phone 731-642-4215, ext. 2400.

Please make the necessary changes and issue our operating permit to new address. Thank you for your help and if anything else is needed you may reach me 731-642-4215, ext. 2012 or by email velma.mcbride@setcoauto.com or may contact Gary.

Yours truly,

SETCO AUTOMOTIVE, N.A., INC.

A handwritten signature in cursive script, appearing to read 'Velma McBride', is written over the typed name.

Velma McBride,
H.R. Manager
