Subject: Permit applications

Mr. Tate,

I have not heard from you concerning the operating permit applications for the surface coating operation at your facility located at 419 Industrial Drive in White House, TN.

I have attached the permit applications that need to be completed and submitted to the address on the applications.

Please submit the permit applications to the address or email on the application. The applications must be submitted no later than August 19, 2018.

If the permit application is not submitted by August 19, 2018 enforcement action could be taken for operating without a permit.

If you have any questions, please let me know.

Ken
