\* - Source of data

- 1) Actual emissions are calculated using a 2,000 hour per year operating limit as per the agreement letter dated April 27, 2016, and controlled emission factors.
- 2) Source of data is the application dated February 19, 2016, and the last construction permit application dated June 28, 1977.
- 3) NSPS applicability was determined using the equipment list in the letter dated May 10, 2016, provided by the facility, as shown in Conditions 2 and 3 in the permit. The list is missing size and ID numbers for the equipment, but it is the most complete set of information the facility has.

PERMITTING PROGRAM: CLM DATE: May 16, 2016
