Subject: 32-0215 / 081059 Draft Permit Review

Good morning,

Attached is the revised draft of permit 081059 and the associated emission summary that accounts for newly agreed limits on PM and SO₂. Before the draft is finalized for issuance, your review is requested. If no response is received by the specified date, the draft will be considered as accepted.

Once we receive a review from both the facility and the Environmental Field Office, issuance of permit 081059 can proceed. Please submit any comments or questions by March 26, 2023, or indicate whether additional time is required for review.

Sincerely,

Mario Ornelas | Environmental Protection Specialist I
