Hello Ms. Inman,

Thank you for confirming the applicability of Federal Air Pollution Control Rules to your facility.

To finalize this matter, we require a letter signed by your facility's responsible official. The letter should confirm that your facility does not operate gasoline dispensing facilities and relies solely on small handheld gasoline containers. This confirmation will demonstrate your exemption from Subpart CCCCCC.

Please don't hesitate to reach out if you have any questions regarding the letter or the exemption process. We appreciate your cooperation.

Best regards,

Eric King

Hello Mr. Gentilcore,

The Division of Air Pollution Control is currently conducting an audit to verify which federal air quality regulations apply to emission sources at your facility. This audit is necessary as we are restructuring our fee system for emission sources. Under the new system, fees will be based on the complexity of your permit and the specific federal air pollution control regulations that apply to your facility.

Our records indicate that the following federal air quality regulations apply to your sources:

40 CFR 61 Subpart M: Asbestos

40 CFR 62 Subpart OOO: MSWL

40 CFR 60 Subpart JJJJ: Engines

40 CFR 63 Subpart AAAA: MSWL

40 CFR 63 Subpart ZZZZ: Engines

40 CFR 63 Subpart CCCCCC: Gasoline Dispensing

Please respond to this email by April 1, 2024, to confirm or deny the applicability of each listed regulation. If you have any questions or concerns, please do not hesitate to contact me by phone or email.

Sincerely,

Eric King
