Doug/Shawn,

Heraeus is submitting the attached extension request for permit 979077 in accordance with Condition G7 of the permit. The permit is set to expire on November 17, 2023, so this request is well in advance of the 30-day requirement.

Please let me know if you have any questions.

Thanks,  
Shea

Construction Permit 979077 Extension Request

Dear Mr. Wright:

With this letter, Heraeus Precious Metals North America, LLC, (Heraeus) requests an extension in accordance with condition G7 of Construction Permit 979077, which covers the following sources at the facility:

- Source 14: Smelter
- Source 15: Calciner, Ball Mills, and Blender
- Source 16: Hammer Mill
- Source 17: Silos and Day Bins

Construction has not been completed for all sources, as some equipment has been delayed in arriving onsite. The facility currently expects that installation will be completed in January 2024. Heraeus requests the extension for an additional 12 months.

If you have questions or comments, please contact Andrew Morgan, Site EHS Manager, at (423) 346-1065, or my consultant, Shea Cofer, at (615) 418-1414.

Based on information and belief formed after reasonable inquiry, the statements and information in this document are true, accurate and complete.

Sincerely,

Jue Kupka  
President HPM Americas
