TENNESSEE AIR POLLUTION CONTROL BOARD  
DEPARTMENT OF ENVIRONMENT AND CONSERVATION  
NASHVILLE, TENNESSEE 37243-1531

**OPERATING PERMIT** Issued Pursuant to Tennessee Air Quality ActDate Issued: **SEP 25 2002**Permit Number:  
055706P

Date Expires: September 1, 2012

Issued To:  
Tutco Inc.Installation Address:  
500 Gould Drive  
CookevilleInstallation Description:  
Surface Coating Operation:  
Coating of Steel StripsEmission Source Reference No.  
71-0190-01 - P

The holder of this permit shall comply with the conditions contained in this permit as well as all applicable provisions of the Tennessee Air Pollution Control Regulations.

**CONDITIONS:**

1. The application that was utilized in the preparation of this permit is dated August 2, 2002 and signed by Mr. William L. Wiegand, Manufacturing Engineering Manager of the permitted facility. If this person terminates his employment or is reassigned different duties such that he is no longer the responsible person to represent and bind the facility in environmental permitting affairs, the owner or operator of this air contaminant source shall notify the Technical Secretary of the change. Said notification shall be in writing and submitted within thirty (30) days of the change. The notification shall include the name and title of the new person assigned by the source owner or operator to represent and bind the facility in environmental permitting affairs. All representations, agreement to terms and conditions and covenants made by the former responsible person that were used in the establishment of limiting permit conditions on this permit will continue to be binding on the facility until such time that a revision to this permit is obtained that would change said representations, agreements and covenants. This permit does not cover any air contaminant source that does not conform to the conditions of this permit and the information given in the approved application.

(conditions continued on next page)

  
TECHNICAL SECRETARY

No Authority is Granted by this Permit to Operate, Construct, or Maintain any Installation in Violation of any Law, Statute, Code, Ordinance, Rule, or Regulation of the State of Tennessee or any of its Political Subdivisions.

**NON-TRANSFERABLE****POST AT INSTALLATION ADDRESS**

2. Volatile organic compounds (VOC) emitted from this source shall not exceed 24.0 tons during any period of twelve (12) consecutive months. Compliance with this requirement shall be indicated by the records required by **Conditions 3 and 4**.

This emission limitation is established pursuant to Rule 1200-3-26-.02(6)(b) of the Tennessee Air Pollution Control Regulations and the information contained in the agreement letter dated August 2, 2002 and signed by Don Schroeder, General Manager of the permitted facility. The permittee has requested this limit in order to reduce annual emission fees.

3. The as-supplied VOC content of all VOC-containing materials to be used by this source shall be determined as follows:

All Coatings, Inks, Adhesives, Thinners, and Solvents - from Material Safety Data Sheets (MSDS) or manufacturer or vendor formulation data which explicitly list the VOC content by weight.

The results of these determinations shall be compiled in the following tabular format or an alternative format which readily provides the same required information. This table, along with MSDS or other supporting documentation for each material used, shall be maintained at the source location and made available for inspection by the Technical Secretary or his representative, beginning 180 days from the issue date of this permit. If new materials are used, or if material formulation is changed, the table shall be updated within 90 days from the initial date of usage of the new or altered material.

Process Material Description	Material Density (lb/gal)	VOC Content (lb/gal)
Material #1		
Material #2		
etc.		

4. A log of all VOC-containing materials used shall be maintained at the source location. The permittee shall calculate the total VOC emitted from this source during each calendar month and maintain records of these emissions in a form that readily shows compliance with **Condition 2** of this permit. (See example below.) This log must be maintained at the source location and kept available for inspection by the Technical Secretary or his representative. This log must be retained for a period of not less than two (2) years.

Process Materials	Usage (gal/month)	VOC Content (lb/gal)	VOC Emitted (ton/month)
Material #1			
Material #2			
etc.			
Total:			

5. Visible emissions from this source shall not exhibit greater than twenty percent (20%) opacity as determined by EPA Method 9, as published in the Federal Register, Volume 39, Number 219 on November 12, 1974. (six-minute average)
6. The issuance of this operating permit supersedes any previously issued permit(s) for this air contaminant source.
7. The permittee shall apply for renewal of this permit not less than sixty (60) days prior to the permit expiration date, pursuant to Rule 1200-3-9-.02(3) of the Tennessee Air Pollution Control Regulations.
