

SWP 10-138Z

Dear sir or madam,

We are recycling this material and selling it as a recycled product. We have in process 97% of the material we received in the 2010/2011 reporting year. This is above the reported 75% exemption rate as is noted in the Recycling Exemption per Rule 1200-1-7-.07(1)(b) 4. Therefore the fee is not included since we are exempt for the reporting year 2011. I am including this table to summarize. The total gross material received, amount in recycling and the waste shipped off-site are in bold. If there are any questions please give us a call at (865) 567-2221.

Thank you.

Chemical Technologies, LLC

Received / In-Process / Waste Totals 2010/2011 (Reporting Year)

Materials Received	Received	# Drums	Gross Wt. Ton	Placed in Recycling Process	Processed	Tons	# Drums	Remaining	Shipped to Off-Site Disposal Facility		
									Gross, Ton	Waste	# Waste Drums
Totals:		296	154.7			150.1	12		0.0	0.0	0.0

Drums of material in-process/processed: 284

2011 Reporting Through: 6/30/2011

Percent Material In Process or Processed:

Processing Totals

2010/2011 in-process total (tons):

150.1

=====>

Note: All of this material was received during the 2010/2011 report year

97% In Process of all Material Received

Notes:

- 1) No material has been sent off-site for disposal this year.
- 2) Processed material is recycled into a usable / saleable product.
- 3) Gross weight includes the drums, lids, rings and shipping pallet weights; these components are recycled as well and are included in the percent recycled.

*Fixed on 9-30-11
will be mailed on Monday.*

*Approved as
"Recycling exemption."*
