Nashville, TN 37204

Re: Environmental Waste Solutions (EWS)  
IDL 03-0212 Minor Modification

Dear Mr. Sohr:

This letter is in response to a minor modification request submitted by Mr. Jo House with House Engineering, LLC on your behalf dated November 21, 2013. The modification request, as submitted, proposes to co-mingle storm water with EWS landfill leachate to meet pretreatment standards before shipment to an off-site wastewater treatment plant.

In accordance with Policy PN084 (attached Division of Water Resources Memorandum of Agreement), this is acceptable as a minor modification in lieu of EWS obtaining an operating permit from the Division of Water Resources. The minor modification request dated October 9, 2013 is hereby approved.

Your cooperation and patience in this matter is appreciated. If you have any questions concerning this letter, please contact me at (731) 512-1337.

Sincerely,

James W. Warren  
Environmental Field Office Manager  
Division of Solid Waste Management
