Re: Amended Permit-By-Rule Approval – Increase of Storage Capacity
Lighting Resources LLC, Buffalo Road Processing Facility – SWP900001576

Dear Mr. Barnett:

As required by Rule 0400-11-01-.02(6)(b)1 of the Solid Waste Processing and Disposal Regulations, the Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has reviewed your amended notification to the Permit-By-Rule for the Lighting Resources LLC (SWP900001576) facility received October 25, 2021. The amended notification was submitted to update the current permit to increase the facility's storage capacity of lamps and bulbs. This amendment increases the overall storage limit from 969.50 cubic yards to 1359.50 cubic yards and includes an update to the amount of financial assurance required.

Therefore, DSWM is notifying you of the results of this review in accordance with Rule 0400-11-01-.02(6)(b)2(ii). DSWM approves the updated notification amendments for incorporation into the approved Lighting Resources LLC Permit-By-Rule as previously authorized by DSWM's letter dated September 27, 2021.

Per Rule 0400-11-01.02(2)(a)1(xxiii) solid waste processing facilities must file a financial instrument with the State of Tennessee in an amount sufficient to insure the proper closure of the facility. There is currently \$124,554.00 on file. The new required financial assurance amount is \$172,084.00. Please contact TDEC's Division of Fiscal Services at (615) 253-6367 for assistance concerning the remaining financial assurance balance of \$47,530.00.

If you have any questions, feel free to contact Brianna Rives by email at Brianna.Rives@tn.gov or call 615-308-0104.

Sincerely,

Lisa A. Hughey, CHMM
