Re: Amended Permit-by-Rule Approval
Lighting Resources, LLC – SWP900001510

Dear Mr. Gillespie:

As required by Rule 0400-11-01-.02(6)(b)1 of the Solid Waste Processing and Disposal Regulations, the Tennessee Division of Solid Waste Management (DSWM, the Division), has reviewed your amended notification request to the Permit-by-Rule for the Lighting Resources, LLC facility dated March 4, 2016. The request is needed since the facility will be performing additional processing (deploying) on automotive airbags whereas they were previously sent off-site for deployment following dismantling. As a result of this change, some adjustments to waste locations and quantities are needed. Financial assurance will not be required as the maximum storage capacity as specified is still less than 1,000 cubic yards.

Therefore, the Division is notifying you of the results of this review in accordance with Rule 0400-11-01-.02(6)(b)2(ii). The Division approves the updated notification amendments for incorporation into the approved Lighting Resources, LLC Permit-by-Rule as previously authorized by the Division's letter of September 29, 2015.

If you have any questions regarding this letter, feel free to contact Greg Luke by email at greg.luke@tn.gov or call (615) 532-0874.

Sincerely,

A handwritten signature in black ink, reading "Patrick J. Flood", is written over the typed name and title.

Patrick J. Flood, P.E.
Director
