RE: Compliance Issues/Director's Order SWM 14-0004
SNL # 35-101-0223

Dear Director Flood:

I would like to thank you and your department for your continued patience with Hardeman County regarding the Landfill compliance issues. I apologize on behalf of our County for its untimely responses and lack of compliance. On September 1, 2014, I took office as Mayor of Hardeman County. Previously, as City Administrator of Bolivar (1991-2000), it was my responsibility to supervise all Landfill operations, and I took that responsibility very seriously. I worked closely with your Jackson office, and am confident that they will agree that my administration strived to maintain compliance at all times.

I am fully aware of the urgency of this matter, and I have retained Stigall Engineering to assist in correcting all compliance issues. We are monitoring the situation daily, and I have assured Mr. James Warren that we are proceeding as quickly as possible to address every concern. I realize that I have inherited a Landfill in poor condition, but assure you that I can fix it. I humbly ask for your consideration in granting me time to comply with each of your Director's Orders.

Thank you again for your patience, and I appreciate your consideration in this matter.

Sincerely,

Jimmy Sain
Mayor, Hardeman County

**RE: NOTICE OF SHOW CAUSE MEETING
CASE NO. SWM14-0004**

Dear Mayor Spencer:

Through investigation by personnel of the Division of Solid Waste Management, the Division must allege that you have violated the *Tennessee Solid Waste Disposal Act*, T.C.A. §§ 68-211-104 (3) and (4).

T.C.A. §§ 68-211-104 (3) and (4) state:

It is unlawful to:

- (3) Construct, alter, or operate a solid waste processing or disposal facility or site in violation of the rules, regulations, or orders of the commissioner or in such a manner as to create a public nuisance; or
- (4) Transport, process or dispose of solid waste in violation of this chapter, the rules and regulations established under this chapter or in violation of the orders of the commissioner or board.

Tennessee Code Annotated Section 68-211-112 authorizes the Commissioner or his designee, prior to any enforcement action, to request the presence of an alleged violator to show cause why enforcement action ought not to be taken by the Department. Among the enforcement actions available to the Department is the assessment of FIVE THOUSAND DOLLARS (\$5,000.00) PER DAY PENALTY for violation of the *Tennessee Solid Waste Disposal Act* (68-211-101 et seq.).

Therefore, we are requesting that you meet with us on Thursday, April 8, 2014, at 1:00 p.m. CDT and show cause why this Department should not take enforcement action, including the assessment of an appropriate civil penalty. Our office is located on the fourteenth floor of the William R. Snodgrass Tennessee Tower, 312 Rosa L Parks Avenue, Nashville, Tennessee. You or your representatives should bring all relevant information, reports, and documents pertaining to your Class I solid waste disposal facility. Please be prepared to discuss this matter in detail with reasonable accuracy.

If you have any questions concerning this correspondence, please contact Teresa Boyer at (615) 532-0814 or email Teresa.Boyer@tn.gov.

Sincerely,

Patrick J. Flood, PE

RE: Phase IV Construction
Hardeman County, SNL35-0223

Dear Mayor Spencer:

The purpose of this letter is to inform you that Hardeman County may not accept solid waste for disposal into Phase IV of the Hardeman County Class I Disposal Facility, SNL 35-0223 due to the fact that Phase IV was not constructed in accordance with the permit. This is a violation of *Tennessee Code Annotated §68-211-105(b)* and the terms and conditions of your operating permit.

T.C.A. §68-211-105(b) provides:

No new construction shall be initiated nor shall any change be made in any solid waste processing facility or disposal facility or site until the plans for such new construction or change have been submitted to and approved by the department.

On April 10, 2013, the Division of Solid Waste Management received the Construction Quality Control Report certified by Construction Material Laboratory, Inc. prepared for Barge Waggoner Sumner & Cannon, Inc. detailing design changes that were made during the construction of Phase IV of the facility. These design changes constitute modifications of the operating permit that were not approved in accordance with the procedures outlined in Division Rule 0400-11-01-.02(6)(b).

Division Rule 0400-11-01-.04(4)(a)7.(i) states, in pertinent part, that "The leachate collection and removal system must be designed, constructed, operated and maintained such that the leachate depth over the liner does not exceed one foot..." The design changes created a difference in elevation between the cell floor of Phase III and Phase IV

of the disposal facility. This difference in elevation has created head of greater than one foot over an undetermined surficial area of the floor of Phase III of the facility.

Further the design changes have caused the facility to be in violation of Division Rule 0400-11-010.04(5) which states, in pertinent part, "A leachate collection and removal system is required immediately above the liner that is designed, constructed, maintained and operated to collect and remove leachate from the facility. Observation made by Mr. James Warren and Mr. Ron Potts, during their August 7, 2013 inspection indicate the temporary leachate line located underneath the constructed Phase IV is transporting significant amounts of leachate.

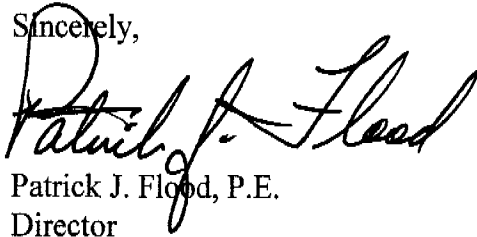

Leachate flow through the temporary leachate pipe located below the Phase IV liner must be eliminated. Also, any penetrations through the Phase II or Phase III primary liner must be properly repaired in accordance with the Construction Quality Assurance Plan.

The alignment of the main leachate line located in Phase IV of the disposal facility is approximately 30 feet south of the Phase III leachate main line. Also, the connection of the Phase II leachate main line to the Phase IV leachate collection main is not located on the as-built drawings.

Within thirty (30) days of the receipt of this letter, please submit a permit modification request which details how the leachate migration control standards specified in Division Rule 0400-11-01-.04(4) will be met. Placement of waste into Phase IV may begin upon approval of the permit modification.

If you have any questions concerning this correspondence, please call James Warren at (731) 512-1337.

Sincerely,

Patrick J. Flood, P.E.

RE: Final Permit Decision – Major Modification: Vertical Expansion
Hardeman County Class I Landfill – SNL 35-0223

Dear Mayor Clift:

The Tennessee Department of Environment and Conservation is hereby issuing the enclosed permit to you for construction and operation of major modification to the referenced disposal facility.

I appreciate your interest in complying with state statutes and look forward to working with you again. If you have any questions, please contact Paul Evan Davis at (615) 532-0072 or by email: paul.evan.davis@state.tn.us.

**REGISTRATION AUTHORIZING SOLID WASTE
DISPOSAL ACTIVITIES IN
TENNESSEE**

Registration Number: SNL 35-0223

Date Issued: August 24, 2006

Issued to: **Hardeman County Government**

Activities Authorized: Construction, operation, closure, and post-closure care of a Class I disposal facility located in Hardeman County, at 75 Landfill Way off of Walton Lane, south of Highway 64, approximately 4.3 miles from the Hardeman County Courthouse in Bolivar, Tennessee, for the disposal of domestic wastes, commercial wastes, institutional wastes, municipal solid wastes, bulky wastes, landscaping and land clearing wastes, industrial wastes, construction/demolition wastes, farming wastes, dead animals, and special wastes.

By my signature this registration is issued in compliance with the provisions of the Tennessee Solid Waste Disposal Act (Tennessee Code Annotated, Section 68-211-101, et seq.), and applicable regulations developed pursuant to this law and in effect; and in accordance with the conditions and other terms set forth in this registration document and attached Registration Conditions.

Mike Apple, Director
Division of Solid Waste Management

PERMIT TERMS AND CONDITIONS

1. Re-certification by Permittee for Facilities Whose Initial Operation is Delayed - If the facility does not initiate construction and/or operation within one year of the date of this permit, the permittee must re-certify the application in accordance with Rule 1200-1-7-.02(2)(d).
2. Duty to Comply - The permittee must comply with all conditions of this permit, unless otherwise authorized by the Department. Any permit noncompliance, except as otherwise authorized by the Department, constitutes a violation of the Act and is grounds for enforcement action, or for permit termination, revocation and re-issuance, or modification.
3. Need to Halt or Reduce Activity Not a Defense - It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.
4. Duty to Mitigate - In the event of noncompliance with the permit, the permittee shall take all reasonable steps to minimize releases to the environment, and shall carry out such measures as are reasonable to prevent adverse impacts on human health or the environment.
5. Proper Operation and Maintenance - The permittee shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the permittee to achieve compliance with the conditions of this permit. Proper operation and maintenance includes effective performance, adequate funding, adequate operator staffing and training, and adequate laboratory and process controls, including appropriate quality assurance procedures. This provision requires the operation of back-up or auxiliary facilities or similar systems only when necessary to achieve compliance with the conditions of the permit.
6. Permit Actions - This permit may be modified, revoked and re-issued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and re-issuance, or termination, or a notification of planned changes or anticipated noncompliance, does not stay any existing permit condition.
7. Property Rights - This permit does not convey any property rights of any sort, or any exclusive privilege.
8. Duty to Provide Information - The permittee shall furnish to the Commissioner, within a reasonable time, any relevant information which the Commissioner may request to determine whether cause exists for modifying, revoking and re-issuing, or terminating this permit, or to determine compliance with this permit. The permittee must also furnish to the Commissioner, upon request, copies required to be kept by this permit. All records, including a copy of this permit and the approved Part I and Part II application, must be maintained at the facility or other locations as approved by the Commissioner.

9. Inspection and Entry - The permittee shall allow the Commissioner, or an authorized representative, to:

- (i) Enter at any reasonable time the permittee's premises where a regulated facility or activity is located or conducted, or where records must be kept under the conditions of this permit;
- (ii) Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit;
- (iii) Inspect at any reasonable time any facilities, equipment (including monitoring and control equipment), practices or operations regulated or required under this permit (Note: If requested by the permittee at the time of sampling, the Commissioner shall split with the permittee any samples taken.);
- (iv) Sample or monitor at reasonable times, for the purposes of assuring permit compliance or as otherwise authorized by the Act any substances or parameters at any location; and
- (v) Make photographs for the purpose of documenting items of compliance or noncompliance at waste management units, or where appropriate to protect legitimate proprietary interests, require the permittee to make such photos for the Commissioner.

10. Monitoring and Records

- (i) Samples and measurements taken for the purpose of monitoring shall be representative of the monitored activity.
- (ii) The permittee shall retain records of all required monitoring information. The permittee shall maintain records for all groundwater monitoring wells and associated ground-water surface elevations, for the active life of the facility, and for the post-closure care period as well. This period may be extended by request of the Commissioner at any time.
- (iii) Records of monitoring information shall include:
 - (I) The date, exact place, and time of sampling or measurements;
 - (II) The individual(s) who performed the sampling or measurements;
 - (III) The date(s) analyses were performed;
 - (IV) The individual(s) who performed the analyses;
 - (V) The analytical techniques or methods used (including equipment used); and
 - (VI) The results of such analyses.

11. Reporting Requirements

- (i) The permittee shall give notice to the Commissioner as soon as possible of any planned physical alterations or additions to the permitted facility.
- (ii) Monitoring results shall be reported at the intervals specified elsewhere in this permit.
- (iii) The permittee shall report orally within 24 hours from the time the permittee becomes aware of the circumstances of any release, discharge, fire, or explosion from the permitted solid waste facility which could threaten the environment or human health outside the facility. Such report shall be made to the Tennessee Emergency Management Agency, using the 24-hour toll-free number 1-800-262-3300.
- (iv) Where the permittee becomes aware that it failed to submit any relevant facts in a permit application, or submitted incorrect information in a permit application or in any report to the Commissioner, it shall promptly submit such facts or information.

12. Periodic Survey

- (i) Within 60 days of his receipt of the written request of the Commissioner to do so, the permittee shall cause to be conducted a survey of active and/or closed portions of his facility in order to determine if operations (e.g., cut and fill boundaries, grades) are being conducted in accordance with the approved design and operational plans. The permittee must report the results of such survey to the Commissioner within 90 days of his receipt of the Commissioner's request.
- (ii) The Commissioner may request such a survey:
 - (I) If he has reason to believe that operations are being conducted in a manner that significantly deviates from the approved plans; and/or
 - (II) As a periodic verification (but no more than annually) that operations are being conducted in accordance with the approved plans.
- (iii) Any survey performed pursuant to this part must be performed by a qualified land surveyor duly authorized under Tennessee law to conduct such activities.

13. Duration of Permits - This permit shall be effective for the operating life of the facility.

14. Effect of Permit - The issuance of this permit does not authorize the permittee to injure persons or property or to invade other private rights, or to violate any local law or regulations.

15. Transfer, Modification, Revocation and Re-issuance, and Termination of Permits - This permit may be transferred, modified, revoked or reissued, or terminated as set forth in 1200-1-7-.02(5).

16. Applicable Standards - All applicable facility standards of Rule Chapter 1200-1-7, Solid Waste Processing and Disposal Amendments shall be considered conditions of this registration.
17. Penalties - Any violation of the conditions or other terms of this registration may subject the registrant to the penalties set forth in Tennessee Code Annotated Section 68-211-114 and 68-211-117.
18. Hazardous Waste Restriction - No hazardous waste, as regulated by the Tennessee Hazardous Waste Management Act (TCA Section 68-212-101, et seq.), and the Rules adopted pursuant to that Act, shall be accepted at this facility.
19. Construction and Operation - The permittee shall construct and operate the facility in accordance with the approved engineering plans and operations manual which becomes a condition of this permit as Attachment I.
20. Financial Assurance - Prior to beginning operation, the permittee must file a Financial Assurance Instrument in accordance with Rule 1200-1-7-.03.
21. Special Waste - Except as specifically provided for in the Facility-Specific Conditions of this permit, the permittee may not accept for disposal any special waste unless approved to do so in writing by this Department.
22. Automobile Batteries - This facility is specifically prohibited from accepting automobile batteries for disposal.

VARIANCES AND WAIVERS

The following variances or waivers from standards or requirements in Rule 1200-1-7, Solid Waste Processing and Disposal Amendments, are hereby granted in accordance with Rule 1200-1-7-.01(5):

1. Due to the local unavailability of suitable soils for construction of the final cap, the Permittee has requested permission to use available soils, augmented with a welded sheet Very Low Density Polyethylene (VLDP) material to meet the necessary cap permeability requirements. The Division of Solid Waste Management is hereby granting this variance request, subject to the following terms and conditions:
 - (i) The Permittee must monitor and record both the local rainfall amounts and the leachate generation rates.
 - (ii) The information must be used by the Permittee, or their consultant, to verify that the alternate cap design is equivalent to the performance standard of the current solid waste management regulations.
 - (iii) In the event that equivalent performance cannot be demonstrated, the Permittee will be required to modify the design such that equivalent performance can be demonstrated.
2. A variance is granted from the site buffer requirements of Rule 1200-7-1-.04(3)(a) to allow a drainage structure within fifty (50) feet of the property boundary.

FACILITY-SPECIFIC PERMIT CONDITIONS

The following conditions of this permit are established pursuant to Rule 1200-1-7-.02(4)(b):

1. The sediment control structure shall be inspected for stability and/or erosion every two (2) months and after every major rain event and shall be cleaned when the volume of sediment in the structure is equal to one-half ($1/2$) the total capacity of the structure.
2. All monitoring wells shall be installed, and samples shall be taken by the applicant to be analyzed before any waste is accepted for disposal in this site.
3. Landfill operations shall adhere to recommendations as specified in the geologic report.
4. During the entirety of the post-closure period for Phase I of the facility, adequate erosion control on the crown and side slopes of the filled area must be maintained. In the event that side-slope erosion becomes a chronic problem, the facility may be required to install additional interceptor berms on the side-slopes, as well as runoff let-down structures, armored ditches, and energy-dissipation devices.

RE: Public Notice of Intent to Issue Permit – **REPOSITORY MATERIALS**
Hardeman County Class I Landfill – SNL 35-0223

Dear Ms. Taylor:

The Division of Solid Waste Management is proposing to issue a major permit modification to the Hardeman County government for the referenced Class I disposal facility. To provide the public an opportunity to review this proposal, we request that the enclosed materials be made available for public review until the end of the public comment period ending at 4:30 p.m. CDT on August 18, 2006. We also ask that you retain all materials for one week beyond the end of the comment period, until August 25, 2006.

Included with this letter are copies of: 1) a Public Notice of Intent to Issue a Permit, published July 5, 2005 in the Bolivar Bulletin-Times, 2) a map showing the proposed site location, 3) a fact sheet, 4) a letter requesting a permit modification, 5) a Disclosure Statement for the applicant, and 6) a copy of the Draft Permit. The balance of the materials, including copies of the Part II reports, plans, and specifications will be delivered to you by DSWM personnel from the TDEC Environmental Field Office in Jackson, Tennessee, telephone: 731-512-1300.

We ask that you also post the notice on your public bulletin board. As noted in the Public Notice, interested citizens may review these materials at the library. We ask that you not loan out these materials; however, they may be copied subject to your own copying policies.

Should you have any questions, please write or call me at (615) 532-0072. We thank you for your service to the Division and to the community by making this information available to the public.

Sincerely,

2. Give a brief description of the structure of the business (e. g.. partnership, sole proprietorship, corporation, association). Governmental Entity
3. List the names, addresses, and titles of all officers, directors or partners of the applicant, of any parent or subsidiary corporation if the applicant is a corporation, and of any person owning 10% or more interest in the applicant company.
See Attached List
4. List the name and address of all facilities in the field of solid or hazardous waste management in which the applicant business or any of its officers, directors, or partners, holds a 10% or greater interest and the name of the officer, director or partner holding such interest.
One half interest in Bolivar-Hardeman County Landfill
5. List the names of all key personnel, including titles and positions held.
See list provided in No. 3 above. Also, Steve Robinson, Director of Solid Waste
6. List all permits and licenses relating to solid and/or hazardous waste management presently held by the applicant(s), including facility name, location, permit or license number and name of issuing authority or agency.
Bolivar Hardeman County Landfill Permit #SNL-35-101-0223
75 Landfill Way
Bolivar, TN 38008
Issued by TN Dept. of Environment & Conservation
7. List all permits and licenses relating to solid and/or hazardous waste management presently held by the applicant(s) within the last ten (10) years not listed previously. include facility name, location, permit or license number and name of issuing authority or agency.
Same as No. 6 above
8. List the name and address of solid and/or hazardous waste facilities constructed and operated by any parent or subsidiary corporation, if the applicant is a corporation.
N/A
9. List all judicial and/or administrative orders issued for the violations of any state or federal environmental protection law which resulted in a fine or penalty within the five (5) year period immediately preceding the submission date of the applicant's permit application. Include in the description:
None
- a. the style of the complaint
b. the case file number
c. the forms in which the complaint was filed

- d. the identity of each state or federal agency involved with or named in the complaint
 - e. the amount of the fine(s) or penalty(s)
 - f. whether the fine or penalty has been paid
 - g. the identity and description of each law or regulation violated or alleged to have been violated and upon which fine(s) or penalty(s) is/are based
 - h. state whether the fine was the result of a settlement or agreed order, an administrative order or a court judgment
 - i. if litigation is ongoing, describe any orders or judgments entered and describe the current status of litigation
 - j. explain all corrective action measures performed to correct or mitigate the violations
10. List and explain all revocations, suspensions or denials of a license, permit, or equivalent authorization, which was issued within the past ten (10) years by any government entity and was issued pursuant to law, rule, or regulation relative to the collection, transportation, treatment, storage, or disposal of solid or hazardous waste. Include the date of the revocation, suspension, or denial and the name of the issuing agency or authority. None
11. List and describe all criminal felony convictions entered against the applicant for the violation of any state or federal environmental protection law or regulation within the ten (10) years preceding the submission date of applicant's permit application. Include in the description: None
- a. the style of the case
 - b. the case file number
 - c. the forum in which the conviction was entered
 - d. the date of judgment
 - e. the sentence imposed
 - f. the identity and a description of each law applicant was convicted of violating
 - g. whether the conviction was the result of a plea agreement of a trial
 - h. if currently on appeal, the status of the appeal

RESOLUTION 04-006

A RESOLUTION FOR A COMPLETE TRANSFER OF THE BOLIVAR/HARDEMAN COUNTY LANDFILL FROM THE CITY OF BOLIVAR TO OPERATE UNDER THE SOLE PROVISIONS OF HARDEMAN COUNTY.

WHEREAS, the Hardeman County Commissioners met on May 27, 2004 and have voted to take over full operation and ownership of the Bolivar/Hardeman County Landfill; and

WHEREAS, the Mayor and Council of the City of Bolivar agree to transfer all assets, revenues, checking accounts, savings accounts, accounts receivable, accounts payable, all debts and liabilities to Hardeman County including all real property, vehicles, buildings and all assets held in the enterprise fund; and

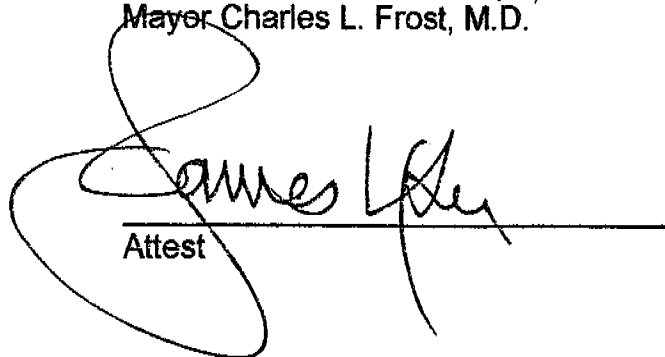

WHEREAS, this transfer between the City of Bolivar and Hardeman County will be effective as of July 1, 2004.

NOW THEREFORE BE IT RESOLVED that the Mayor and Council of the City of Bolivar agree to transfer and surrender the full operation and ownership of the Bolivar/Hardeman County Landfill to Hardeman County.

NOW BE IT RESOLVED by the City of Bolivar Mayor and Council on this day 8th day of June 2004.

Mayor Charles L. Frost, M.D.

RE: Public Notice of Intent to Issue Permit – Proposed Vertical Expansion
Hardeman County Class I Landfill – SNL 35-0223

Dear Mayor Sain:

Enclosed for your information are: 1) a copy of the public notice of this Division's intent to issue a major permit modification for the above-referenced disposal facility, 2) a fact sheet which briefly describes the proposal, and 3) a site map.

We have requested that the notice and map be published in the July 5, 2006 copy of The Bolivar Bulletin-Times.

To inform interested persons in the area of this proposal, we request that the notice, fact sheet, and map be posted upon receipt in City Hall and that they remain posted until the end of the public comment period, which ends at 4:30 p.m. CDT on August 18, 2006. Copies of the notice, fact sheet, and map have also been sent to the Hardeman County Mayor, requesting that they be posted in the Hardeman County Courthouse.

Should you have any questions, please feel free to write or call me at (615) 532-0072. We thank you for your service to the Division and to the community by making this information available to the public.

Sincerely,

A handwritten signature in cursive script that reads "Paul Evan Davis".

NOTICE OF INTENT TO ISSUE PERMIT
FOR A SOLID WASTE DISPOSAL FACILITY

The Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has tentatively decided to issue a solid waste disposal facility major permit modification to Hardeman County government for construction, operation, phased closure, and post-closure care of a vertical expansion to the existing Hardeman County Class I Landfill for the disposal of domestic wastes, commercial wastes, institutional wastes, municipal solid wastes, bulky wastes, landscaping and land clearing wastes, industrial wastes, construction/demolition wastes, farming wastes, dead animals, and special wastes.

The facility, identified as SNL 35-0223, is located in Hardeman County, at 75 Landfill Way off of Walton Lane, south of Highway 64, approximately 4.3 miles from the Hardeman County Courthouse in Bolivar, Tennessee (latitude 35°17'10" N/ longitude 89°03'22" W). No hazardous wastes, as regulated by the Tennessee Hazardous Waste Management Act (Tennessee Code Annotated, Section 68-212-101, et. seq.) and the Rules adopted pursuant to the Act, shall be accepted for disposal at this facility. The official responsible for operation of the facility is Mr. Don Clifft, Hardeman County Mayor, P.O. Box 250, Bolivar, Tennessee 38008; telephone: 731-658-3266.

Following an in-depth review of the application, DSWM has made a preliminary determination that this proposal meets the applicable requirements of Tennessee Rule Chapter 1200-1-7, Solid Waste Processing and Disposal. It is the present intent of DSWM, pending consideration of any contrary technical information received during the public comment period ending on August 18, 2006, that this permit be issued. Copies of the application and data for this proposal may be viewed at the Bolivar-Hardeman County Library, 213 North Washington Street, Bolivar, TN 38008-2020; telephone: 731-658-3436. These materials are also available for public inspection in the Public Access Area at the TDEC Jackson Environmental Field Office, 1625 Hollywood Drive, Jackson, TN 38305; telephone: 731-512-1300.

During the public comment period provided, any interested person may submit written comments on the draft permit and may request a public hearing. A request for a public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. The public is invited to submit comments in writing to: Mr. Mike Apple, Director, Division of Solid Waste Management, 5th Floor, L&C Tower, 401 Church Street, Nashville, TN 37243-1535; telephone: 615-532-0780. Comments must be received by 4:30 p.m. CDT on Friday, August 18, 2006 to assure consideration. After considering all public comments, the DSWM Director will issue a final permit decision and a Response to Comments, which can be viewed at the Bolivar-Hardeman County Library or at the TDEC Field Office in Jackson.

The Tennessee Department of Environment and Conservation is committed to principles of equal opportunity, equal access, and affirmative action. Contact the EEO/AA Coordinator at 1-888-867-7455 or the ADA Coordinator at 1-866-253-5827 for further information. Hearing impaired callers may use the Tennessee Relay Service at 1-800-848-0298.

Persons who wish to be on the Division of Solid Waste Management's mailing list should obtain a Mailing List Request form by calling or writing the Public Participation Officer, Division of Solid Waste Management, Tennessee Department of Environment and Conservation, 5th Floor, L & C Tower, 401 Church Street, Nashville TN 37243-1535, telephone: (615) 532-0798, email: solid.waste@state.tn.us.

RETURN RECEIPT REQUESTED

RE: Public Notice of Intent to Issue Permit – Proposed Vertical Expansion
Hardeman County Class I Landfill – SNL 35-0223

Dear Mayor Clift:

Enclosed for your information are: 1) a draft copy of a Public Notice of this Division's Intent to Issue a Permit for a major permit modification for the above-referenced facility, 2) a site map, 3) a fact sheet, which briefly describes the proposal, and 4) a copy of the draft permit.

Pursuant to Tennessee Rule 1200-1-7-.02(3)(e)1., effective 9-14-03, all public notices (except for notices of intent to deny a permit) must be placed by the applicant/permittee. The Division of Solid Waste Management (DSWM) has prepared the enclosed notice and map for publication in the main news section of The Bolivar Bulletin-Times. **Please review the notice for accuracy** and contact me as soon as possible if there are any corrections to be made.

Please contact the Tennessee Press Association, Inc., (TPS) at 865-584-5761 to arrange to pay for publishing the notice. TPS will notify the DSWM when payment arrangements have been made. The DSWM will then insert the end date for the 45-day comment period and specify a date for publishing. We will instruct TPS to place the notice and map in the designated newspaper on the specified date. You will receive a copy of the finalized notice.

To inform interested persons in the area of this proposal, we request that the finalized notice, map, and fact sheet be posted upon receipt in the Hardeman Courthouse, and that they remain posted until the end of the public comment period. Copies of the notice, map, and fact sheet will be sent to the Mayor of the City of Bolivar, requesting that they be posted in City Hall. The notice and fact sheet will also be distributed to the persons on a request list maintained by the DSWM.

The Honorable Don Clift

Nashville, Tennessee 37243-1535
(615) 532-0780

NOTICE OF INTENT TO ISSUE PERMIT FOR A SOLID WASTE DISPOSAL FACILITY

The Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has tentatively decided to issue a solid waste disposal facility major permit modification to Hardeman County government for construction, operation, phased closure, and post-closure care of a vertical expansion to the existing Hardeman County Class I Landfill for the disposal of domestic wastes, commercial wastes, institutional wastes, municipal solid wastes, bulky wastes, landscaping and land clearing wastes, industrial wastes, construction/demolition wastes, farming wastes, dead animals, and special wastes.

The facility, identified as SNL 35-0223, is located in Hardeman County, at 75 Landfill Way off of Walton Lane, south of Highway 64, approximately 4.3 miles from the Hardeman County Courthouse in Bolivar, Tennessee (latitude N 35°17'10" / longitude W 89°03'22"). No hazardous wastes, as regulated by the Tennessee Hazardous Waste Management Act (Tennessee Code Annotated, Section 68-212-101, et. seq.) and the Rules adopted pursuant to the Act, shall be accepted for disposal at this facility. The official responsible for operation of the facility is Mr. Don Clift, Hardeman County Mayor, P.O. Box 250, Bolivar, Tennessee 38008; telephone: 731-658-3266.

Following an in-depth review of the application, DSWM has made a preliminary determination that this proposal meets the applicable requirements of Tennessee Rule Chapter 1200-1-7, Solid Waste Processing and Disposal. It is the present intent of DSWM, pending consideration of any contrary technical information received during the public comment period ending on **Monday, May 14, 2001**, that this permit be issued. Copies of the application and data for this proposal may be viewed at the Bolivar-Hardeman County Library, 213 North Washington Street, Bolivar, TN 38008-2020; telephone: 731-658-3436. These materials are also available for public inspection in the Public Access Area at the TDEC Jackson Environmental Field Office, 1625 Hollywood Drive, Jackson, TN 38305; telephone: 731-512-1300.

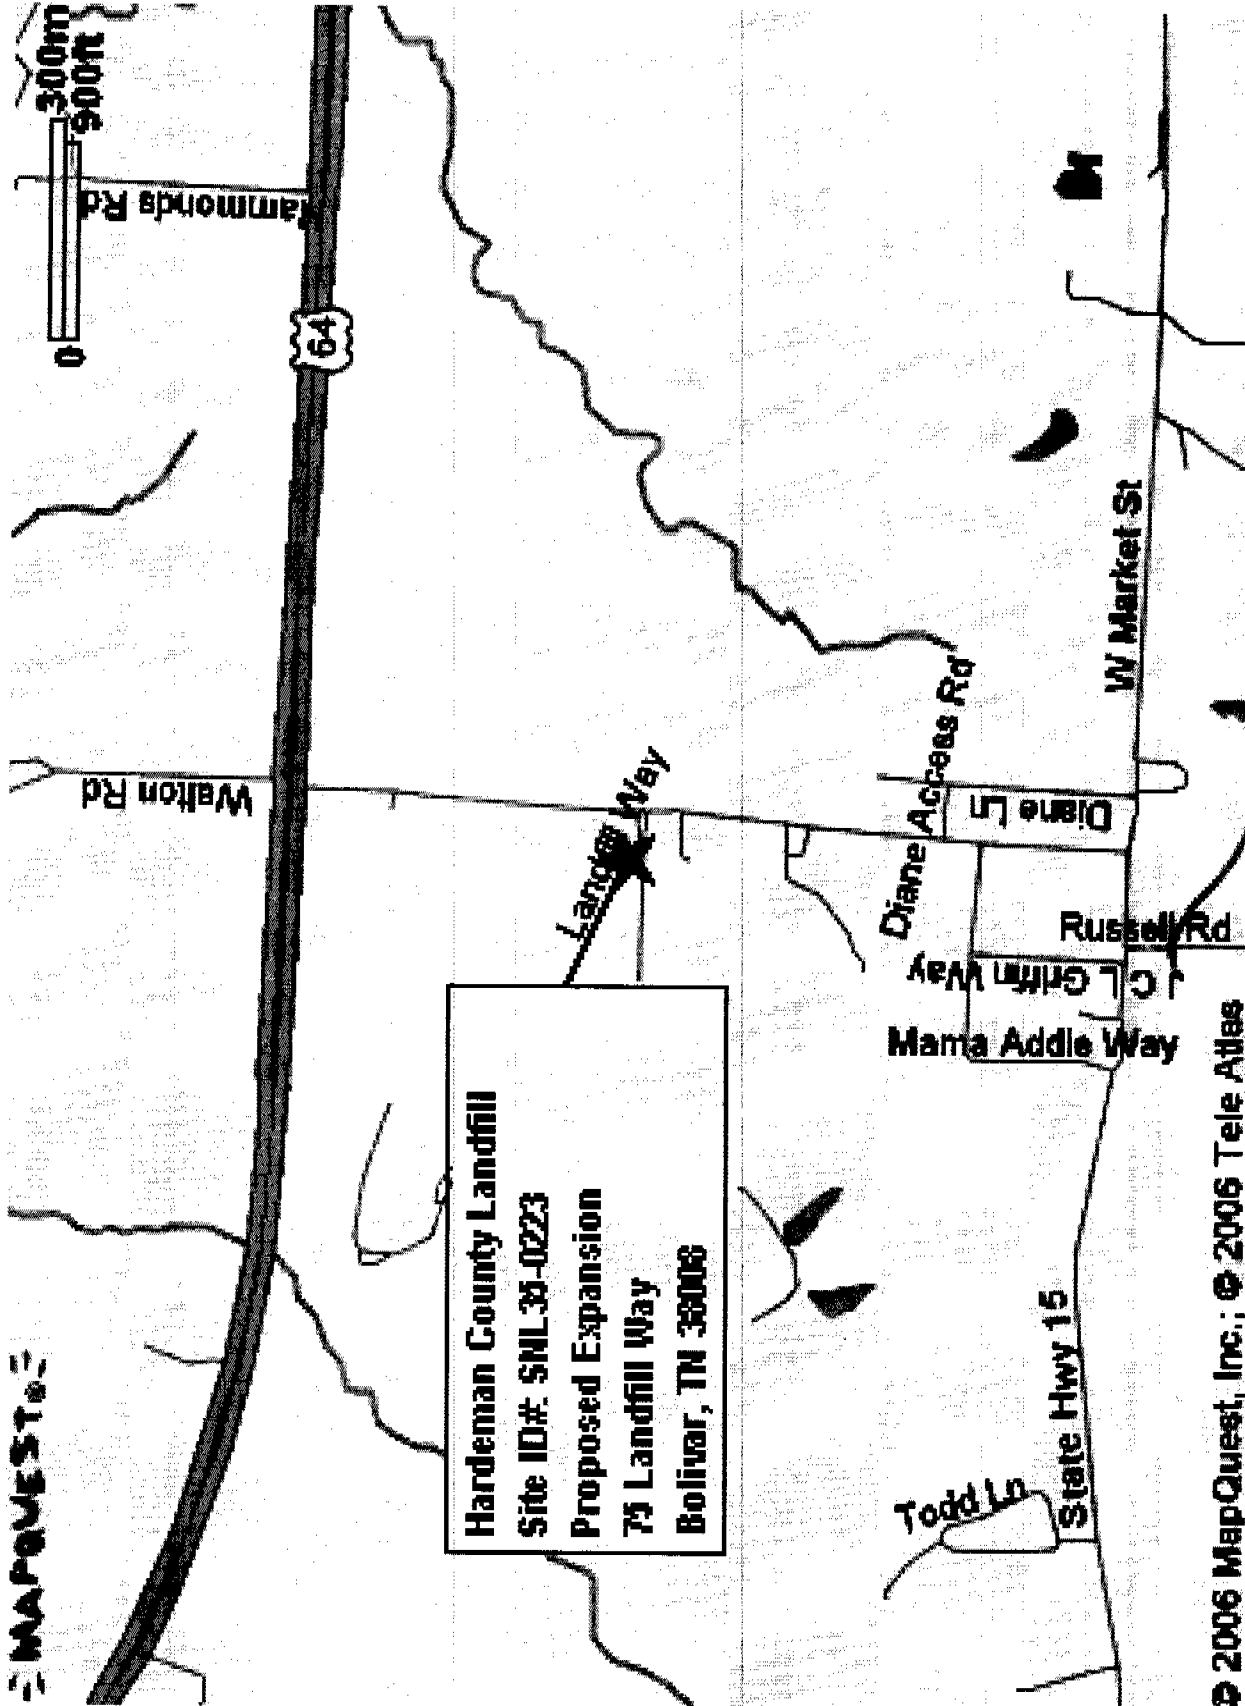

During the public comment period provided, any interested person may submit written comments on the draft permit and may request a public hearing. A request for a public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. The public is invited to submit comments in writing to: Mr. Mike Apple, Director, Division of Solid Waste Management, 5th Floor, L&C Tower, 401 Church Street, Nashville, TN 37243-1535; telephone: 615-532-0780. Comments must be received by 4:30 p.m. CST on **Monday, May 14, 2001**, to assure consideration. After considering all public comments, the DSWM Director will issue a final permit decision and a Response to Comments, which can be viewed at the Bolivar-Hardeman County Library or at the TDEC Field Office in Jackson.

The Tennessee Department of Environment and Conservation is committed to principles of equal opportunity, equal access, and affirmative action. Contact the EEO/AA Coordinator at 1-888-867-7455 or the ADA Coordinator at 1-866-253-5827 for further information. Hearing impaired callers may use the Tennessee Relay Service at 1-800-848-0298.

Persons who wish to be on the Division of Solid Waste Management's mailing list should obtain a Mailing List Request form by calling or writing the Public Participation Officer, Division of Solid Waste Management, Tennessee Department of Environment and Conservation, 5th Floor, L & C Tower, 401 Church Street, Nashville TN 37243-1535, telephone: (615) 532-0798, email: solid.waste@state.tn.us.

DRAFT

FACT SHEET

Hardeman County Class I Landfill

SNL 35-0223

Proposed Vertical Expansion

I. BACKGROUND

- A. Entities Served – The entities served by this facility are those persons Hardeman County contracts with for disposal services.
- B. Type Facility – Class I Disposal Facility for the disposal of domestic wastes, commercial wastes, institutional wastes, municipal solid wastes, bulky wastes, landscaping and land clearing wastes, industrial wastes, construction/demolition wastes, farming wastes, dead animals, and special wastes.
- C. Directions to Facility – From the Hardeman County Courthouse in Bolivar, travel west approximately 4 miles along US Highway 64 to the intersection of Highway 64 and Walton Lane, turn left onto Walton lane and proceed approximately one-half mile to Landfill Way (the facility access road).
- D. The purpose for this Modification is to allow a phased closure of the facility. The facility has been divided into two phases for closure. This modification addresses the closure of Phase 1 of the facility. A groundwater monitoring system has been installed and implemented in accordance with current Solid Waste Regulations.
- E. Owner/Operator – The Facility is owned by Hardeman County Government and is operated by Hardeman County Government.

II. PLANS

- A. Hydrogeology: A hydrogeological report is not necessary for this vertical expansion.
- B. Engineering:
 - 1. Construction plans prepared by – Barge Waggoner Sumner and Cannon, Incorporated.
 - 2. Plans reviewed by Ronald Potts, Environmental Protection Specialist, Jackson Field Office, Division of Solid Waste Management.
 - 3. Plans submitted – September 2004, revised and resubmitted September 2005.
 - 4. Permit Review Committee – November 3, 2005.

**REGISTRATION AUTHORIZING SOLID WASTE
DISPOSAL ACTIVITIES IN
TENNESSEE**

Registration Number: SNL 35-0223

Date Issued: DRAFT

Issued to: **Hardeman County Government**

Activities Authorized: Construction, operation, closure, and post-closure care of a Class I disposal facility located in Hardeman County, at 75 Landfill Way off of Walton Lane, south of Highway 64, approximately 4.3 miles from the Hardeman County Courthouse in Bolivar, Tennessee, for the disposal of domestic wastes, commercial wastes, institutional wastes, municipal solid wastes, bulky wastes, landscaping and land clearing wastes, industrial wastes, construction/demolition wastes, farming wastes, dead animals, and special-wastes.

By my signature this registration is issued in compliance with the provisions of the Tennessee Solid Waste Disposal Act (Tennessee Code Annotated, Section 68-211-101, et seq.), and applicable regulations developed pursuant to this law and in effect; and in accordance with the conditions and other terms set forth in this registration document and attached Registration Conditions.

Division of Solid Waste Management

DRAFT

Registration Number SNL 35-0223

PERMIT TERMS AND CONDITIONS

1. Re-certification by Permittee for Facilities Whose Initial Operation is Delayed - If the facility does not initiate construction and/or operation within one year of the date of this permit, the permittee must re-certify the application in accordance with Rule 1200-1-7-.02(2)(d).
2. Duty to Comply - The permittee must comply with all conditions of this permit, unless otherwise authorized by the Department. Any permit noncompliance, except as otherwise authorized by the Department, constitutes a violation of the Act and is grounds for enforcement action, or for permit termination, revocation and re-issuance, or modification.
3. Need to Halt or Reduce Activity Not a Defense - It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.
4. Duty to Mitigate - In the event of noncompliance with the permit, the permittee shall take all reasonable steps to minimize releases to the environment, and shall carry out such measures as are reasonable to prevent adverse impacts on human health or the environment.
5. Proper Operation and Maintenance - The permittee shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the permittee to achieve compliance with the conditions of this permit. Proper operation and maintenance includes effective performance, adequate funding, adequate operator staffing and training, and adequate laboratory and process controls, including appropriate quality assurance procedures. This provision requires the operation of back-up or auxiliary facilities or similar systems only when necessary to achieve compliance with the conditions of the permit.
6. Permit Actions - This permit may be modified, revoked and re-issued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and re-issuance, or termination, or a notification of planned changes or anticipated noncompliance, does not stay any existing permit condition.
7. Property Rights - This permit does not convey any property rights of any sort, or any exclusive privilege.
8. Duty to Provide Information - The permittee shall furnish to the Commissioner, within a reasonable time, any relevant information which the Commissioner may request to determine whether cause exists for modifying, revoking and re-issuing, or terminating this permit, or to determine compliance with this permit. The permittee must also furnish to the Commissioner, upon request, copies required to be kept by this permit. All records, including a copy of this permit and the approved Part I and Part II application, must be maintained at the facility or other locations as approved by the Commissioner.

DRAFT

Registration Number SNL 35-0223

9. Inspection and Entry - The permittee shall allow the Commissioner, or an authorized representative, to:

- (i) Enter at any reasonable time the permittee's premises where a regulated facility or activity is located or conducted, or where records must be kept under the conditions of this permit;
- (ii) Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit;
- (iii) Inspect at any reasonable time any facilities, equipment (including monitoring and control equipment), practices or operations regulated or required under this permit (Note: If requested by the permittee at the time of sampling, the Commissioner shall split with the permittee any samples taken.);
- (iv) Sample or monitor at reasonable times, for the purposes of assuring permit compliance or as otherwise authorized by the Act any substances or parameters at any location; and
- (v) Make photographs for the purpose of documenting items of compliance or noncompliance at waste management units, or where appropriate to protect legitimate proprietary interests, require the permittee to make such photos for the Commissioner.

10. Monitoring and Records

- (i) Samples and measurements taken for the purpose of monitoring shall be representative of the monitored activity.
- (ii) The permittee shall retain records of all required monitoring information. The permittee shall maintain records for all groundwater monitoring wells and associated ground-water surface elevations, for the active life of the facility, and for the post-closure care period as well. This period may be extended by request of the Commissioner at any time.
- (iii) Records of monitoring information shall include:
 - (I) The date, exact place, and time of sampling or measurements;
 - (II) The individual(s) who performed the sampling or measurements;
 - (III) The date(s) analyses were performed;
 - (IV) The individual(s) who performed the analyses;
 - (V) The analytical techniques or methods used (including equipment used); and
 - (VI) The results of such analyses.

DRAFT

Registration Number SNL 35-0223

11. Reporting Requirements

- (i) The permittee shall give notice to the Commissioner as soon as possible of any planned physical alterations or additions to the permitted facility.
- (ii) Monitoring results shall be reported at the intervals specified elsewhere in this permit.
- (iii) The permittee shall report orally within 24 hours from the time the permittee becomes aware of the circumstances of any release, discharge, fire, or explosion from the permitted solid waste facility which could threaten the environment or human health outside the facility. Such report shall be made to the Tennessee Emergency Management Agency, using the 24-hour toll-free number 1-800-262-3300.
- (iv) Where the permittee becomes aware that it failed to submit any relevant facts in a permit application, or submitted incorrect information in a permit application or in any report to the Commissioner, it shall promptly submit such facts or information.

12. Periodic Survey

- (i) Within 60 days of his receipt of the written request of the Commissioner to do so, the permittee shall cause to be conducted a survey of active and/or closed portions of his facility in order to determine if operations (e.g., cut and fill boundaries, grades) are being conducted in accordance with the approved design and operational plans. The permittee must report the results of such survey to the Commissioner within 90 days of his receipt of the Commissioner's request.
- (ii) The Commissioner may request such a survey:
 - (I) If he has reason to believe that operations are being conducted in a manner that significantly deviates from the approved plans; and/or
 - (II) As a periodic verification (but no more than annually) that operations are being conducted in accordance with the approved plans.
- (iii) Any survey performed pursuant to this part must be performed by a qualified land surveyor duly authorized under Tennessee law to conduct such activities.

13. Duration of Permits - This permit shall be effective for the operating life of the facility.

14. Effect of Permit - The issuance of this permit does not authorize the permittee to injure persons or property or to invade other private rights, or to violate any local law or regulations.

15. Transfer, Modification, Revocation and Re-issuance, and Termination of Permits - This permit may be transferred, modified, revoked or reissued, or terminated as set forth in 1200-1-7-.02(5).

DRAFT

Registration Number SNL 35-0223

16. Applicable Standards - All applicable facility standards of Rule Chapter 1200-1-7, Solid Waste Processing and Disposal Amendments shall be considered conditions of this registration.
17. Penalties - Any violation of the conditions or other terms of this registration may subject the registrant to the penalties set forth in Tennessee Code Annotated Section 68-211-114 and 68-211-117.
18. Hazardous Waste Restriction - No hazardous waste, as regulated by the Tennessee Hazardous Waste Management Act (TCA Section 68-212-101, et seq.), and the Rules adopted pursuant to that Act, shall be accepted at this facility.
19. Construction and Operation - The permittee shall construct and operate the facility in accordance with the approved engineering plans and operations manual which becomes a condition of this permit as Attachment I.
20. Financial Assurance - Prior to beginning operation, the permittee must file a Financial Assurance Instrument in accordance with Rule 1200-1-7-.03.
21. Special Waste - Except as specifically provided for in the Facility-Specific Conditions of this permit, the permittee may not accept for disposal any special waste unless approved to do so in writing by this Department.
22. Automobile Batteries - This facility is specifically prohibited from accepting automobile batteries for disposal.

DRAFT

Registration Number SNL 35-0223

VARIANCES AND WAIVERS

The following variances or waivers from standards or requirements in Rule 1200-1-7, Solid Waste Processing and Disposal Amendments, are hereby granted in accordance with Rule 1200-1-7-.01(5):

1. Due to the local unavailability of suitable soils for construction of the final cap, the Permittee has requested permission to use available soils, augmented with a welded sheet Very Low Density Polyethylene (VLDP) material to meet the necessary cap permeability requirements. The Division of Solid Waste Management is hereby granting this variance request, subject to the following terms and conditions:
 - (i) The Permittee must monitor and record both the local rainfall amounts and the leachate generation rates.
 - (ii) The information must be used by the Permittee, or their consultant, to verify that the alternate cap design is equivalent to the performance standard of the current solid waste management regulations.
 - (iii) In the event that equivalent performance cannot be demonstrated, the Permittee will be required to modify the design such that equivalent performance can be demonstrated.
2. A variance is granted from the site buffer requirements of Rule 1200-7-1-.04(3)(a) to allow a drainage structure within fifty (50) feet of the property boundary.

DRAFT

Registration Number SNL 35-0223

FACILITY-SPECIFIC PERMIT CONDITIONS

The following conditions of this permit are established pursuant to Rule 1200-1-7-.02(4)(b):

1. The sediment control structure shall be inspected for stability and/or erosion every two (2) months and after every major rain event and shall be cleaned when the volume of sediment in the structure is equal to one-half (1/2) the total capacity of the structure.
2. All monitoring wells shall be installed, and samples shall be taken by the applicant to be analyzed before any waste is accepted for disposal in this site.
3. Landfill operations shall adhere to recommendations as specified in the geologic report.
4. During the entirety of the post-closure period for Phase I of the facility, adequate erosion control on the crown and side slopes of the filled area must be maintained. In the event that side-slope erosion becomes a chronic problem, the facility may be required to install additional interceptor berms on the side-slopes, as well as runoff let-down structures, armored ditches, and energy-dissipation devices.

Dear Mr. Roberts:

In accordance with Tennessee's Solid Waste Processing and Disposal Rule 1200-1-7-.02 (3) (b) 1, this office has completed a completeness and technical review of the above referenced permit application. As a result, the application was found to be deficient and will require additional information. The following comments should be adequately addressed prior to re-submitting the permit application:

1. Please submit a slope stability study of the proposed final cover design.
2. Please address storm water runoff/erosion control of the eastern slope of the phase 1 closure area.
3. Please extend the proposed Typical Cross-Section drawing (page C1.03) to include storm water conveyances and interfaces with final cover/ bottom liner.
4. Please provide a detail drawing of the GCL/FML tie-in at the top of slope for the Phase 1 Closure Area.
5. Please provide a detail drawing of the final cover/ bottom liner tie-in at the toe of slope of the Phase 1 Closure Area.
6. Please submit a revised Construction Quality Assurance Plan for closure of the Phase 1 Area.

Mr. Steve Roberts

RE: Permit-By-Rule Authorization – Transfer of Ownership
Bolivar-Hardeman County Baling/Recycling Center – SWP 35-1295

Dear Mayor Spencer:

This letter will serve as official notice that this Division has received and approved your Permit-By-Rule notification for change of ownership for the referenced facility's operation, located in Hardeman County at the Bolivar-Hardeman County Landfill on Walton Lane in Bolivar, Tennessee (latitude N 35°16'55" / longitude W 89°03'25"), for baling and recycling of Class I waste. The facility is currently jointly owned by the City of Bolivar and Hardeman County government. The new permittee of record will be Hardeman County government. The name change to **Hardeman County Landfill Baling/Recycling Center** is also acknowledged.

This facility shall be deemed to have a Permit-by-Rule, provided the criteria of Rule 1200-1-7-.02(1)(c)(1)(i) of Tennessee's Solid Waste Processing and Disposal Regulations are met, including the Permit-by-Rule Conditions currently on file. Please use the registration number for this facility, SWP 35-1295, on all reports and correspondence to the Department or Division regarding this facility.

Financial Assurance is required for this facility. Please contact O.J. Wingfield in the Financial Responsibility Group at (615) 532-0877 to make arrangements concerning financial assurance. If you have questions concerning this letter, please feel free to contact Elizabeth A. Cates at (615) 532-0834.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Apple", is written over the word "Sincerely,".

Re: Bolivar/Hardeman County Landfill
SWP 35-1295

Dear Ms. Cates:

Enclosed please find Form CN-1092, Application For Transfer of Registration of a Solid Waste Disposal or Processing Operation. This is to transfer the permit for the baling and recycling center located at the Bolivar/Hardeman County Landfill. As we had transferred the other permit for the landfill itself, this one will also need to be transferred for ownership purposes from Bolivar/Hardeman County to Hardeman County as the owner and operator. We previously submitted a resolution of June 8, 2004, of the City of Bolivar and also the Minutes of the Hardeman County Board of County Commissioners from May 27, 2004, which documented the city and county transfer of ownership and operation of the landfill. If that information is needed again, feel free to contact me. That information was provided for the transfer of the Landfill Permit SNL 35-0223. Also enclosed is a check for \$1,000.00 to cover the cost of the transfer.

If anything further is needed, feel free to contact me.

Sincerely,

W. Boyette Denton

RE: Final Permit Decision – Change of Ownership
Bolivar/Hardeman County Landfill – SNL 35-0223

Dear Mayor Frost:

The Tennessee Department of Environment and Conservation has decided to issue a minor permit modification to reflect the transfer ownership for the referenced disposal facility. Enclosed is a public notice of the Final Permit Decision.

We have requested that the notice be published in the Wednesday, August 25, 2004, copy of The Bolivar Bulletin-Times.

To inform interested persons in the area of this decision, we request that the notice be posted upon receipt in the City Hall for such time as you deem appropriate. A copy of the notice has also been sent to the Hardeman County Mayor requesting that it be posted in the Hardeman County Courthouse.

Should you have any questions, please feel free to write or call me at (615) 532-0834. We thank you for your service to the Division and to the community by making this information available to the public.

Sincerely,

A handwritten signature in cursive script, reading "Elizabeth A. Cates", is written over the typed name.

SUBJECT: Public Notice of Final Decision to Transfer Solid Waste Disposal Permit
Bolivar/Hardeman County Landfill – SNL 35-0223

The enclosed Public Notice has been finalized pursuant to your confirmation that Hardeman County Government has made arrangements for payment, as instructed in our letter of 8-2-04. Please use the enclosed Public Notice to form a display ad having a width of at least three (3) columns and length as necessary for publication in the main news section of The Bolivar Bulletin-Times. This notice must be published on Wednesday, August 25, 2004, and is not to be placed in the classified advertisement section.

Following publication, please send 2 copies of a NOTARIZED certificate of the publication, with a clipping of the newspaper ad attached, to:

PUBLIC NOTICE OF DECISION TO TRANSFER PERMIT

Bolivar/Hardeman County Class I Landfill Change of Ownership

The Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has issued a final permit decision, pursuant to Rule 1200-1-7-.02(3)(i) and (j), of Tennessee's Solid Waste Program Processing and Disposal Regulations. Hardeman County government has applied pursuant to a change of ownership for a minor permit modification to transfer the permit for the existing Bolivar/Hardeman County Class I Landfill, SNL 35-0223 from the City of Bolivar to Hardeman County government. The landfill was previously permitted jointly to the City of Bolivar and Hardeman County. The facility is located in Hardeman County on the west side of Walton Lane, off Highway 64, approximately 4.3 miles from the Hardeman County Courthouse in Bolivar, Tennessee (latitude N 35°17'10"/ longitude W 89°03'22"). The final decision to issue the permit was made on August 16, 2004.

A copy of the Final Permit may be viewed at the TDEC Environmental Assistance Center, 362 Carriage House Drive, Jackson, TN 38305-2222; telephone: 731-512-1300 for local calls, or 1-888-891-8332 toll-free. You may also obtain a copy of these documents by notifying the Solid Waste Management staff at the address above.

Persons who wish to be on the DSWM mailing list should obtain a Mailing List Request form by calling or writing the Public Participation Officer, Division of Solid Waste Management, Tennessee Department of Environment and Conservation, 5th Floor, L & C Tower, 401 Church Street, Nashville TN 37243-1535, telephone: 615-532-0798, email: solid.waste@state.tn.us.

The Tennessee Department of Environment and Conservation is committed to principles of equal opportunity, equal access, and affirmative action. Contact the EEO/AA Coordinator at 1-888-867-7455 or the ADA Coordinator at 1-866-253-5827 for further information. Hearing impaired callers may use the Tennessee Relay Service at 1-800-848-0298.

RE: Final Decision to Transfer Solid Waste Disposal Permit
Bolivar/Hardeman County Landfill – SNL 35-0223

Dear Mayor Spencer:

The Tennessee Department of Environment and Conservation is hereby issuing the enclosed permit to you as a change of ownership for construction and operation of the referenced disposal facility. This action reflects a change of ownership from the previous joint ownership by the City of Bolivar and Hardeman County. A finalized public notice of the Final Permit Decision is also enclosed.

Please be aware that, before the permit can become effective, you must ensure that financial assurance documents have been properly filed with the Commissioner. Please contact O. J. Wingfield of the TDEC Financial Assurance Section at (615) 532-0877 for assistance or for questions regarding financial assurance.

Please post a copy of the notice in the Hardeman County Courthouse. A copy of the notice has been sent to the Mayor of the City of Bolivar, requesting that it be posted in City Hall. The notice will also be distributed to the persons on a request list maintained by the DSWM.

I appreciate your interest in complying with state statutes and look forward to working with you again. If you have any questions, please contact Elizabeth A. Cates at (615) 532-0834 or by email: Elizabeth.A.Cates@state.tn.us

Sincerely,

Mike Apple
Director

**REGISTRATION AUTHORIZING SOLID WASTE
DISPOSAL ACTIVITIES IN
TENNESSEE**

Registration Number: SNL 35-0223

Date Issued: August 16, 2004

Issued to: **Hardeman County Government**

Activities Authorized: Construction, operation, closure, and post-closure care of a Class I disposal facility located in Hardeman County on the west side of Walton Lane, off Highway 64, approximately 4.3 miles from the Hardeman County Courthouse in Bolivar, Tennessee, for the disposal of domestic wastes, commercial wastes, institutional wastes, municipal solid wastes, bulky wastes, landscaping and land clearing wastes, industrial wastes, construction/demolition wastes, farming wastes, shredded automotive tires, dead animals, and special wastes.

By my signature this registration is issued in compliance with the provisions of the Tennessee Solid Waste Disposal Act (Tennessee Code Annotated, Section 68-211-101, et seq.), and applicable regulations developed pursuant to this law and in effect; and in accordance with the conditions and other terms set forth in this registration document and attached Registration Conditions.

Mike Apple, Director
Division of Solid Waste Management

PERMIT TERMS AND CONDITIONS

1. Re-certification by Permittee for Facilities Whose Initial Operation is Delayed - If the facility does not initiate construction and/or operation within one year of the date of this permit, the permittee must re-certify the application in accordance with Rule 1200-1-7-.02(2)(d).
2. Duty to Comply - The permittee must comply with all conditions of this permit, unless otherwise authorized by the Department. Any permit noncompliance, except as otherwise authorized by the Department, constitutes a violation of the Act and is grounds for enforcement action, or for permit termination, revocation and re-issuance, or modification.
3. Need to Halt or Reduce Activity Not a Defense - It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.
4. Duty to Mitigate - In the event of noncompliance with the permit, the permittee shall take all reasonable steps to minimize releases to the environment, and shall carry out such measures as are reasonable to prevent adverse impacts on human health or the environment.
5. Proper Operation and Maintenance - The permittee shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the permittee to achieve compliance with the conditions of this permit. Proper operation and maintenance includes effective performance, adequate funding, adequate operator staffing and training, and adequate laboratory and process controls, including appropriate quality assurance procedures. This provision requires the operation of back-up or auxiliary facilities or similar systems only when necessary to achieve compliance with the conditions of the permit.
6. Permit Actions - This permit may be modified, revoked and re-issued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and re-issuance, or termination, or a notification of planned changes or anticipated noncompliance, does not stay any existing permit condition.
7. Property Rights - This permit does not convey any property rights of any sort, or any exclusive privilege.
8. Duty to Provide Information - The permittee shall furnish to the Commissioner, within a reasonable time, any relevant information which the Commissioner may request to determine whether cause exists for modifying, revoking and re-issuing, or terminating this permit, or to determine compliance with this permit. The permittee must also furnish to the Commissioner, upon request, copies required to be kept by this permit. All records, including a copy of this permit and the approved Part I and Part II application, must be maintained at the facility or other locations as approved by the Commissioner.

9. Inspection and Entry - The permittee shall allow the Commissioner, or an authorized representative, to:

- (i) Enter at any reasonable time the permittee's premises where a regulated facility or activity is located or conducted, or where records must be kept under the conditions of this permit;
- (ii) Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit;
- (iii) Inspect at any reasonable time any facilities, equipment (including monitoring and control equipment), practices or operations regulated or required under this permit (Note: If requested by the permittee at the time of sampling, the Commissioner shall split with the permittee any samples taken.);
- (iv) Sample or monitor at reasonable times, for the purposes of assuring permit compliance or as otherwise authorized by the Act any substances or parameters at any location; and
- (v) Make photographs for the purpose of documenting items of compliance or noncompliance at waste management units, or where appropriate to protect legitimate proprietary interests, require the permittee to make such photos for the Commissioner.

10. Monitoring and Records

- (i) Samples and measurements taken for the purpose of monitoring shall be representative of the monitored activity.
- (ii) The permittee shall retain records of all required monitoring information. The permittee shall maintain records for all groundwater monitoring wells and associated ground-water surface elevations, for the active life of the facility, and for the post-closure care period as well. This period may be extended by request of the Commissioner at any time.
- (iii) Records of monitoring information shall include:
 - (I) The date, exact place, and time of sampling or measurements;
 - (II) The individual(s) who performed the sampling or measurements;
 - (III) The date(s) analyses were performed;
 - (IV) The individual(s) who performed the analyses;
 - (V) The analytical techniques or methods used (including equipment used); and
 - (VI) The results of such analyses.

11. Reporting Requirements

- (i) The permittee shall give notice to the Commissioner as soon as possible of any planned physical alterations or additions to the permitted facility.
- (ii) Monitoring results shall be reported at the intervals specified elsewhere in this permit.
- (iii) The permittee shall report orally within 24 hours from the time the permittee becomes aware of the circumstances of any release, discharge, fire, or explosion from the permitted solid waste facility which could threaten the environment or human health outside the facility. Such report shall be made to the Tennessee Emergency Management Agency, using the 24-hour toll-free number 1-800-262-3300.
- (iv) Where the permittee becomes aware that it failed to submit any relevant facts in a permit application, or submitted incorrect information in a permit application or in any report to the Commissioner, it shall promptly submit such facts or information.

12. Periodic Survey

- (i) Within 60 days of his receipt of the written request of the Commissioner to do so, the permittee shall cause to be conducted a survey of active and/or closed portions of his facility in order to determine if operations (e.g., cut and fill boundaries, grades) are being conducted in accordance with the approved design and operational plans. The permittee must report the results of such survey to the Commissioner within 90 days of his receipt of the Commissioner's request.
- (ii) The Commissioner may request such a survey:
 - (I) If he has reason to believe that operations are being conducted in a manner that significantly deviates from the approved plans; and/or
 - (II) As a periodic verification (but no more than annually) that operations are being conducted in accordance with the approved plans.
- (iii) Any survey performed pursuant to this part must be performed by a qualified land surveyor duly authorized under Tennessee law to conduct such activities.

13. Duration of Permits - This permit shall be effective for the operating life of the facility.

14. Effect of Permit - The issuance of this permit does not authorize the permittee to injure persons or property or to invade other private rights, or to violate any local law or regulations.

15. Transfer, Modification, Revocation and Re-issuance, and Termination of Permits - This permit may be transferred, modified, revoked or reissued, or terminated as set forth in 1200-1-7-.02(5).

16. Applicable Standards - All applicable facility standards of Rule Chapter 1200-1-7, Solid Waste Processing and Disposal Amendments shall be considered conditions of this registration.
17. Penalties - Any violation of the conditions or other terms of this registration may subject the registrant to the penalties set forth in Tennessee Code Annotated Section 68-211-114 and 68-211-117.
18. Hazardous Waste Restriction - No hazardous waste, as regulated by the Tennessee Hazardous Waste Management Act (TCA Section 68-212-101, et seq.), and the Rules adopted pursuant to that Act, shall be accepted at this facility.
19. Construction and Operation - The permittee shall construct and operate the facility in accordance with the approved engineering plans and operations manual which becomes a condition of this permit as Attachment I.
20. Financial Assurance - Prior to beginning operation, the permittee must file a Financial Assurance Instrument in accordance with Rule 1200-1-7-.03.
21. Special Waste - Except as specifically provided for in the Facility-Specific Conditions of this permit, the permittee may not accept for disposal any special waste unless approved to do so in writing by this Department.
22. Automobile Batteries - This facility is specifically prohibited from accepting automobile batteries for disposal.

VARIANCES AND WAIVERS

The following variances or waivers from standards or requirements in Rule 1200-1-7, Solid Waste Processing and Disposal Amendments, are hereby granted in accordance with Rule 1200-1-7-.01(5):

1. A variance is granted from site buffer requirements of Rule 1200-7-1.04(3)(a) to allow a drainage structure within 50 feet of the property boundary.

FACILITY-SPECIFIC PERMIT CONDITIONS

The following conditions of this permit are established pursuant to Rule 1200-1-7-.02(4)(b):

1. The sediment control structure shall be inspected for stability and/or erosion every two (2) months and after every major rain event and shall be cleaned when the volume of sediment in the structure is equal to one-half (1/2) the total capacity of the structure.
2. All monitoring wells shall be installed, and samples shall be taken by the applicant to be analyzed before any waste is accepted for disposal in this site.
3. Landfill operations shall adhere to recommendations as specified in the geologic report.

RETURN RECEIPT REQUESTED

RE: Public Notice of Final Decision to Transfer Solid Waste Disposal Permit
Bolivar/Hardeman County Landfill – SNL 35-0223

Dear Mayor Spencer:

The Tennessee Department of Environment and Conservation has decided to issue a permit to you for a change of ownership of the referenced disposal facility.

Pursuant to Tennessee Rule 1200-1-7-.02(3)(e)1., effective 9-14-03, all public notices (except for notices of intent to deny a permit) must be placed by the applicant/permittee. The Division of Solid Waste Management (DSWM) has prepared the enclosed draft Public Notice for publication in the main news section of The Bolivar Bulletin-Times. Please review it for accuracy and contact the Tennessee Press Association, Inc., (TPS) at 865-584-5761 as soon as possible to arrange to pay for publishing the notice.

TPS will notify the DSWM when payment arrangements have been made. The DSWM will then insert the date of permit issuance and specify a date for publishing. We will instruct TPS to place the notice in the designated newspaper on the specified date. You will receive a copy of the finalized notice with your permit.

If you have any questions, please feel free to contact me at (615) 532-0834 or by email: Elizabeth.A.Cates@state.tn.us

Sincerely,

Elizabeth A. Cates
Permit Administration

PUBLIC NOTICE OF DECISION TO TRANSFER PERMIT

Bolivar/Hardeman County Class I Landfill Change of Ownership

The Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has issued a final permit decision, pursuant to Rule 1200-1-7-.02(3)(i) and (j), of Tennessee's Solid Waste Program Processing and Disposal Regulations. Hardeman County government has applied pursuant to a change of ownership for a minor permit modification to transfer the permit for the existing Bolivar/Hardeman County Class I Landfill, SNL 35-0223 from the City of Bolivar to Hardeman County government. The landfill was previously permitted jointly to the City of Bolivar and Hardeman County. The facility is located in Hardeman County on the west side of Walton Lane, off Highway 64, approximately 4.3 miles from the Hardeman County Courthouse in Bolivar, Tennessee (latitude N 35°17'10"/ longitude W 89°03'22"). The final decision to issue the permit was made on month day year.

A copy of the Final Permit may be viewed at the TDEC Environmental Assistance Center, 362 Carriage House Drive, Jackson, TN 38305-2222; telephone: 731-512-1300 for local calls, or 1-888-891-8332 toll-free. You may also obtain a copy of these documents by notifying the Solid Waste Management staff at the address above.

Persons who wish to be on the DSWM mailing list should obtain a Mailing List Request form by calling or writing the Public Participation Officer, Division of Solid Waste Management, Tennessee Department of Environment and Conservation, 5th Floor, L & C Tower, 401 Church Street, Nashville TN 37243-1535, telephone: 615-532-0798, email: solid.waste@state.tn.us.

The Tennessee Department of Environment and Conservation is committed to principles of equal opportunity, equal access, and affirmative action. Contact the EEO/AA Coordinator at 1-888-867-7455 or the ADA Coordinator at 1-866-253-5827 for further information. Hearing impaired callers may use the Tennessee Relay Service at 1-800-848-0298.

Re: Bolivar/Hardeman County Landfill

Dear Ms. Gates:

Enclosed please find a check from our trust account in the amount of \$1,000.00 representing the transfer fee for the application pending on behalf of Hardeman County, Tennessee. It is my understanding that this will be considered a minor modification and that no 45 day public comment publication will be necessary however, publication will be needed in the local paper, the Bolivar Bulletin.

Thank you for your assistance in this matter. Feel free to contact me if anything further is needed.

Sincerely,

W. Boyette Denton

Re: Bolivar/Hardeman County Landfill

To Whom It May Concern:

Enclosed please find Form CN-1092, Application For The Transfer of Registration Of A Solid Waste Disposal Or Processing Operation. To date, the landfill located in Hardeman County, Tennessee, has been permitted to Bolivar/Hardeman County, Tennessee as a joint venture on behalf of both City of Bolivar and Hardeman County with the City of Bolivar being the operator of the landfill. As of July 1, 2004, Hardeman County will become the operator and full owner of the landfill and therefore would prefer to have the registration in the name of Hardeman County only.

Enclosed with the application is the Resolution of June 8, 2004, of the City of Bolivar and also the minutes of Hardeman County for May 27, 2004, which evidences the desire of the city and county for the county to take over ownership and operation of the landfill.

If any further is needed, feel free to contact me.

Sincerely,

W. Boyette Denton

RESOLUTION 04-006

A RESOLUTION FOR A COMPLETE TRANSFER OF THE BOLIVAR/HARDEMAN COUNTY LANDFILL FROM THE CITY OF BOLIVAR TO OPERATE UNDER THE SOLE PROVISIONS OF HARDEMAN COUNTY.

WHEREAS, the Hardeman County Commissioners met on May 27, 2004 and have voted to take over full operation and ownership of the Bolivar/Hardeman County Landfill; and

WHEREAS, the Mayor and Council of the City of Bolivar agree to transfer all assets, revenues, checking accounts, savings accounts, accounts receivable, accounts payable, all debts and liabilities to Hardeman County including all real property, vehicles, buildings and all assets held in the enterprise fund; and

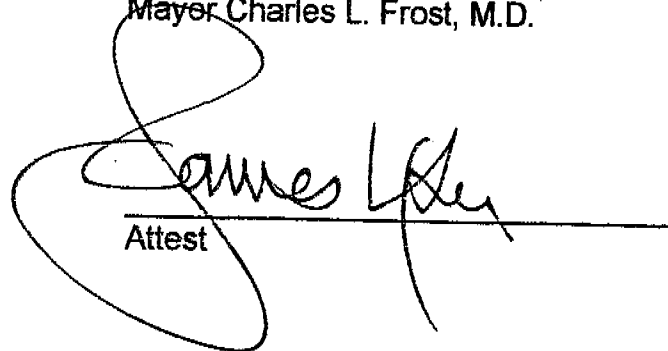

WHEREAS, this transfer between the City of Bolivar and Hardeman County will be effective as of July 1, 2004.

NOW THEREFORE BE IT RESOLVED that the Mayor and Council of the City of Bolivar agree to transfer and surrender the full operation and ownership of the Bolivar/Hardeman County Landfill to Hardeman County.

NOW BE IT RESOLVED by the City of Bolivar Mayor and Council on this day 8th day of June 2004.

Mayor Charles L. Frost, M.D.
