Re:    Hydrologic Determination  
       7655 Hwy 194  
       Fayette County, Tennessee

Dear Ms. Cline,

The Division of Water Resources, at your request, conducted a hydrologic determination at 7655 Hwy 194 on June 17, 2022. The channel in question is classified as a wet weather conveyance from the eastern property line to the conveyance with another channel located approximately at 35.13485, -89.49008.

The Division does not have jurisdiction over wet weather conveyances, and therefore any work completed on this wet weather conveyance does not require permit coverage. However, alterations of wet weather conveyances are governed by, and must be conducted in compliance with, T.C.A. § 69-3- 108(q).

If you have any questions, please feel free to contact me at (901) 426-6691 or at [Ginna.McWhirter@tn.gov](mailto:Ginna.McWhirter@tn.gov).

Thank you,

Ginna McWhirter  
Environmental Scientist
