Nashville, Tennessee 37243

Dear Mr. Janjić:

TENNESSEE VALLEY AUTHORITY (TVA) – KINGSTON FOSSIL PLANT (KIF) FLUE GAS
DESULFURIZATION (FGD) PROJECT– TNR190588 – NOTICE OF TERMINATION (NOT)

Please see the enclosed NOT for termination of coverage for the subject activity under the general permit for storm water discharges associated with construction activity. Any areas that were not finally stabilized during this project have been transferred to the KIF Gypsum Disposal Area (GDA) and Fly Ash Haul Road Project covered under Construction General Permit number TNR191259. The Storm Water Pollution Prevention Plan (SWPPP) for the GDA and Fly Ash Haul Road Project has been revised to include these areas.

TVA appreciates your review and handling of this NOT. If you have any questions or need additional information, please contact Paula Coker in Chattanooga at (423) 751-3948, or by email at mpcoker@tva.gov.

Sincerely,

A handwritten signature in blue ink that reads "Terry E. Cheek".

Terry E. Cheek
Senior Manager
Water Permits, Compliance, and Monitoring

Notice of Termination (NOT) for General NPDES Permit for Stormwater Discharges from Construction Activities (CGP)

This form is required to be submitted when requesting termination of coverage from the CGP. The purpose of this form is to notify the TDEC that either all stormwater discharges associated with construction activity from the portion of the identified facility where you, as an operator, have ceased or have been eliminated; or you are no longer an operator at the construction site. Submission of this form shall in no way relieve the permittee of permit obligations required prior to submission of this form. Please submit this form to the local WPC Environmental Field Office (EFO) address (see table below). For more information, contact your local EFO at the toll-free number 1-888-891-8332 (TDEC).

Type or print clearly, using ink.

Site or Project Name: TVA - Kingston Fossil Plant		NPDES Tracking Number: TNR 190588	
Street Address or Location: 714 Swan Pond Road, Harriman, TN 37748-8327		County(ies): Roane	
Name of Permittee Requesting Termination of Coverage: TVA - Kingston Fossil Plant			
Permittee Contact Name: B. Doug Keeling		Title or Position: Plant Manager	
Mailing Address: 714 Swan Pond Road		City: Harriman	State: TN Zip: 37748
Phone: (865)717-2501		E-mail: bdkeelin@tva.gov	

Check the reason(s) for termination of permit coverage:

<input checked="" type="checkbox"/>	Stormwater discharge associated with construction activity is no longer occurring and the permitted area has a uniform 70% permanent vegetative cover OR has equivalent measures such as rip rap or geotextiles, in areas not covered with impervious surfaces.
<input type="checkbox"/>	You are no longer the operator at the construction site (i.e., termination of site-wide, primary or secondary permittee coverage).

Certification and Signature: (must be signed by president, vice-president or equivalent ranking elected official)

I certify under penalty of law that either: (a) all stormwater discharges associated with construction activity from the portion of the identified facility where I was an operator have ceased or have been eliminated or (b) I am no longer an operator at the construction site. I understand that by submitting this notice of termination, I am no longer authorized to discharge stormwater associated with construction activity under this general permit, and that discharging pollutants in stormwater associated with construction activity to waters of the United States is unlawful under the Clean Water Act where the discharge is not authorized by a NPDES permit. I also understand that the submittal of this notice of termination does not release an operator from liability for any violations of this permit or the Clean Water Act.

For the purposes of this certification, elimination of stormwater discharges associated with construction activity means that all stormwater discharges associated with construction activities from the identified site that are authorized by a NPDES general permit have been eliminated from the portion of the construction site where the operator had control. Specifically, this means that all disturbed soils at the portion of the construction site where the operator had control have been finally stabilized, the temporary erosion and sediment control measures have been removed, and/or subsequent operators have obtained permit coverage for the site or portions of the site where the operator had control.

I certify under penalty of law that this document and all attachments were prepared by me, or under my direction or supervision. The submitted information is to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment. As specified in Tennessee Code Annotated Section 39-16-702(a)(4), this declaration is made under penalty of perjury.

Permittee name (print or type): B. Doug Keeling, Plant Manager	Signature: <i>B. Doug Keeling</i>	Date: 5-19-14
