Notice of Termination (NOT) for General NPDES Permit for Stormwater Discharges from Construction Activities (CGP)

This form is required to be submitted when requesting termination of coverage from the CGP. The purpose of this form is to notify the TDEC that either all stormwater discharges associated with construction activity from the portion of the identified facility where you, as an operator, have ceased or have been eliminated; or you are no longer an operator at the construction site. Submission of this form shall in no way relieve the permittee of permit obligations required prior to submission of this form. Please submit this form to the local DWR Environmental Field Office (EFO) address (see table below). For more information, contact your local EFO at the toll-free number 1-888-891-8332 (TDEC).

Phone: 423-751-3031 E-mail: msturnbow@tva.gov Check the reason(s) for termination of permit coverage: Stormwater discharge associated with construction activity is no longer occurring and the permitted area has a uniform 70% permand vegetative cover OR has equivalent measures such as rip rap or geotextiles, in areas not covered with impervious surfaces. You are no longer the operator at the construction site (i.e., termination of site-wide, primary or secondary permittee coverage). Certification and Signature: (must be signed by president, vice-president or equivalent ranking elected official) I certify under penalty of law that either: (a) all stormwater discharges associated with construction activity from the portion of the id facility where I was an operator have ceased or have been eliminated or (b) I am no longer an operator at the construction site. I understate by submitting this notice of termination, I am no longer authorized to discharge stormwater associated with construction activity ungeneral permit, and that discharging pollutants in stormwater associated with construction activity to waters of the United States is under the Clean Water Act where the discharge is not authorized by a NPDES permit. I also understand that the submittal of this netermination does not release an operator from liability for any violations of this permit or the Clean Water Act. For the purposes of this certification, elimination of stormwater discharges associated with construction activity means that all stor discharges associated with construction activities from the identified site that are authorized by a NPDES general permit have been elim from the portion of the construction site where the operator had control. Specifically, this means that all disturbed soils at the portior construction site where the operator had control. Specifically, this means that all disturbed soils at the portior construction site where the operator had control. Dear Mr. Janjić:

TENNESSEE VALLEY AUTHORITY (TVA) - KINGSTON FOSSIL PLANT (KIF) - CONSTRUCTION GENERAL PERMIT NO. TNR191557 - NOTICE OF TERMINATION (NOT)

Enclosed is a NOT for the subject construction general permit. TVA has completed the project and the site has achieved final stabilization.

If you have questions or need additional information, please contact Brad Love at (423) 751-8518 or by email at bmlove@tva.gov.

Sincerely.

Terry E/Cheek Senior Manager
