

STORM WATER POLLUTION PREVENTION PLAN
(SWPPP) **ADDENDUM**

*1111 CHURCH STREET RESIDENCES
METROPOLITAN NASHVILLE
DAVIDSON COUNTY, TENNESSEE*

OCTOBER 26, 2020

DESIGN STORM ADDENDUM

The site drains to the Cumberland River via Kerrigan Combined Sewer. Because the site does not drain to an impaired water body, all EPSC measures have been designed to handle runoff from the 2-yr, 24-hr storm event.
