Re: **NPDES Permit Tracking No. TNR191557**  
**Tennessee Valley Authority**  
**Kingston Fossil Plant - Ball Field Closure and Flow Management Projects**  
**Roane County, Tennessee**

Dear Ms Dennison:

The Division of Water Resources (division) acknowledges receipt of the Notice of Intent (NOI) form we received on May 19, 2016. The NOI was submitted to obtain coverage under a General NPDES Permit for Storm Water Discharges Associated with Construction Activity. Enclosed is the Notice of Coverage (NOC) form, which shows the site name and location, receiving stream, effective date of coverage, etc.

**Contractor Information**

As of the date this NOI was processed, no contractor was identified on the NOI. A primary contractor, or contractor otherwise responsible for sediment and erosion controls on the construction site, must be identified and must submit an NOI to this office prior to his beginning earth clearing operations on site. When submitting the NOI, the contractor should indicate on the NOI form the above referenced permit tracking number.

**Storm Water Pollution Prevention Plan (SWPPP)**

You have submitted a Storm Water Pollution Prevention Plan (SWPPP) as required by Part 1.4.2 of the CGP. Please note that the division has not performed an engineering review of the SWPPP and does not certify whether the SWPPP adequately provides for the pollution prevention requirements at the site as described in the General Permit. The division acknowledges that you have submitted a SWPPP that appears to include the required components of a SWPPP. It is the responsibility of all site operators to design, implement, and maintain measures that are sufficient to prevent pollution at the referenced site, and to remain in compliance with the terms and conditions of the General Permit.

**Annual Maintenance Fee and Termination of Permit Coverage**

Effective July 1, 2014, permit fees for the CGP have been revised. In addition to new application fee amounts, annual maintenance fees are now required for projects that exceed one year of coverage. Permittees wishing to terminate coverage must submit a completed notice of termination (NOT) form, which is available on the division's construction stormwater webpage at <http://www.tn.gov/environment/permits/conststrm.shtml>.

The division will review the NOT for completeness and accuracy and, when necessary, investigate the site for which the NOT was submitted. The division will notify the applicant that either the NOT form was received and accepted, or that

the permit coverage is not eligible for termination and has not been terminated. If applicable, the notification will include a summary of existing deficiencies.

We appreciate your attention to this permit and its requirements. If you have any questions, please contact Mr. Jim McAdoo at (615) 532-0684 or by E-mail at [Jim.McAdoo@tn.gov](mailto:Jim.McAdoo@tn.gov).

Sincerely,

A handwritten signature in blue ink that reads "Wade D. Murphy / for". The signature is written in a cursive style.

Vojin Janjić  
Manager, Water-Based Systems

**Tracking Number TNR191557**

**NOTICE OF COVERAGE UNDER THE GENERAL NPDES PERMIT FOR STORM WATER DISCHARGES ASSOCIATED WITH CONSTRUCTION ACTIVITY (CGP)**

Tennessee Department of Environment and Conservation  
Division of Water Resources  
401 Church Street, 6th Floor, L&C Annex  
Nashville, Tennessee 37243

Under authority of the Tennessee Water Quality Control Act of 1977 (T.C.A. 69-3-101 et seq.) and the delegation of authority from the United States Environmental Protection Agency under the Federal Water Pollution Control Act, as amended by the Clean Water Act of 1977 (33 U.S.C. 1251, et seq.):

Name of the Construction Project: **Kingston Fossil Plant- Ball Field Closure and Flow Management Projects**

Master Tracking Number at the Site: **TNR191557**

Permittee Name: **Tennessee Valley Authority (TVA)**

Contractor(s): **No contractor**

Are authorized to discharge: **Storm water associated with construction activity**

From facility location: **714 Swan Pond Road, Roane County**

To receiving waters named: **Emory River Embayment of Watts Bar Reservoir**

in accordance with effluent limitations, monitoring requirements and other conditions set forth herein.

Likely presence of threatened or endangered species in one mile radius: **NO**

Likely presence of threatened or endangered species downstream: **NO**

Additional pollution prevention requirements apply for discharges into waters which TDEC identifies as:

**- Exceptional Tennessee Waters: NO**

Your coverage under the CGP shall become effective on **May 20, 2016**, and shall be terminated upon receipt of [Notice of Termination](#), or the date of expiration of the CGP, **May 23, 2016**.
